OUR OWN HOME GARDEN

Twenty-two Acres of
HARDY FLOWERS
EVERGREENS
SHRUBS
TREES
VINES
and
ROSES

from

The Sutherland Landscape and Nursery Co.
BOULDER, COLORADO

Instructions for Ordering

Write your NAME AND ADDRESS CAREFULLY. Give directions as to whether we should ship by express or freight. We pay the delivery charges on Hardy Plants, Roses and Vines, on orders of \$2.00 and up, but not on Shrubs, Evergreens or Trees.

"MADE IN COLORADO" STOCK

It will be to your advantage to plant our Colorado Grown Stock, as it is acclimated and suited to our climatic conditions. Our Prices are as low as any, delivery will cost you little, if anything; whereas in buying from the "east" you will have to pay the express which is now from thirty to fifty per cent higher than ever before, and will sometimes double the original cost of plants.

PRICES

Our prices are for the best stock that can be grown, guaranteed to reach you in good growing condition. Notice OUR NEW PLAN given below, where prices are quoted for lots of TWELVE, THREE and for SINGLE PLANTS. The "twelve" price will be allowed on six of ONE KIND. This does not mean, for instance, six Phlox assorted varieties, but six Phlox of ONE variety.

OUR NEW PLAN

Many people buy one plant of a kind, which is never satisfactory, as it takes three or more plants of one kind to make any show in the garden, or to furnish enough flowers for cutting. You will be much better pleased with the plants, and will enjoy them much better, either in the garden, or when cut for the house, if you buy six or twelve of one kind, rather than buying one each of six or twelve different plants. Buy six or twelve of a few sorts this year, and then next season add six or twelve of some other varieties, in this way you will build up a garden that will afford you the maximum of enjoyment. We offer much lower prices for THREE, SIX or TWELVE plants of one sort.

OUR GUARANTEE

We send out only plants that are in a good, healthy, growing condition, and guarantee them to reach you in that condition. If you are not satisfied with them when received, return them to us AT ONCE and we will send others in their place, or return your money. We do not hold ourselves responsible for your success in growing the plants, they will grow if properly planted and given reasonable care, so no complaints can be entertained unless made immediately upon receipt of the stock.

TERMS

Please send money-order or check with order. Customers known to us may pay for stock UPON ITS ARRIVAL. We do not carry monthly accounts, but will expect a check for any stock bought within a week of its shipment.

SIZE OF PLANTS

Many eastern nurseries send out tiny plants that have been grown in a greenhouse, cheaply produced, but not always sold as cheaply. They may be all right in the east but will not be found satisfactory here. We send out strong, field-grown plants, and they will reach you in a good growing condition, and almost without exception will bloom the first year. On most varieties we can furnish large clumps at an advanced price; prices upon application, as they will vary on different plants.

OLD-FASHIONED FLOWERS

Perennials, or Old-Fashioned Flowers, are becoming more popular each year, and deservedly so, as they are hardy in our gardens without winter protection, coming up from the roots after their winter's rest, and each year becoming larger and more beautiful. A well-planted border of the Hardy Flowers we offer will be in bloom from early April to November, and will be a constant delight, as each day brings some new flower to be admired.

We now have TWENTY-TWO ACRES of "MADE-IN-COLORADO" FLOWERS

About Planting

In planting care should be taken that the earth is firmed about the roots, so that there are no air spaces left. Plant as soon as possible after receiving plants, and then water thoroughly. Again—Firm earth about the roots thoroughly, then water.

The Truth About Flowers

Catalogue writers are usually optimists, with a big OP, and sometimes forget that flowers may have some undesirable qualities that make them unfitted for certain plantings.

In my descriptions I have told, so far as I know them, any undesirable qualities, and my descriptions are of the flowers as I see them. As an illustration, note description of "Achillea" on page 2.

You will also find suggestions as to groupings. These groupings are ones that we use in our large garden plantings, and have been thoroughly tried out.

Why You Can Depend Upon the Plants We Offer

For nearly twenty years the writer has been planning and personally superintending the planting of many of the largest Colorado Gardens. These gardens have been under his personal observation for two to five years after they have been planted, so that he has had every opportunity of seeing just what the various plants would do under our climatic conditions in the ordinary city garden.

Although we offer a very large assortment, the varieties are all of merit, and adapted to our conditions; and each year we are trying out the new varieties, and offer them for sale only when we are convinced that they are worthy of a place in our catalogue. You can depend upon what we offer.

IMPORTANT An Explanation of Names

To make buying easy, and to insure customers getting what they think they are buying an American Committee of Horticultural Nomenclature has just published a book giving the new approved

The Flaming Torch Lily, Tritoma

STANDARD SCIENTIFIC, and approved STANDARD COMMON name of every plant in American commerce. The names used in our new catalogue are taken from that book, and may be accepted as the correct names both scientific and common, of all the stock herein offered. To illustrate:—On page 2 you will find:

"Achillea—Yarrow"

A robust growing plant, suitable for growing amongst shrubs, but should— etc. (This is the description of Achillea, as a class.)

THE PEARY. Large sprays, etc. (Description of Achillea, The Pearl.

PERRY'S WHITE. A choice variety, etc. Description of Achillea, Perry's White.)

"Achillea" is the Scientific, or botanical name of the group.

"Yarrow" is the common name of the group.

"Achillea, The Pearl" is the name of one particular variety of Achillea. Your order would read.

6 Achillea, The Pearl, \$1.00.

The Sutherland Landscape & Nursery Co.

(Members Rocky Mountain Association of Nurserymen)

Landscape Department
W. G. Sutherland

Nursery Department
R. G. Sutherland

ACHILLEA—Yarrow

A robust growing plant, suitable for growing amongst shrubs, but should not be planted with other perennials, as it is a rank grower, has small white rose-like flowers that are very fine for cutting, much on the order of a gigantic Baby Breath, blooms all summer, two feet.

THE PEARL. Large sprays of handsome white rose-like flowers. Dozen \$2.00; Three, 60c; One, 25c.

PERRY'S WHITE. A choice new variety with flowers much larger than The Pearl. Dozen, \$2.50; Three, 75c; One, 35c.

ACONITUM—Monkshood

Summer and autumn-flowering plants with bold spikes of blue flowers resembling Foxglove, do well in either sun or shade. The roots are poisonous, and should not be planted where they might be mistaken for vegetables.

FISCHERI (Azure Monkshood). Dwarf, 18 inches, pale blue flowers in September.

NAPELLUS. (Aconite). 3 to 4 ft., blooming in July and August, large dark blue flowers.

SPARK'S VARIETY. A new variety, and the finest, 30 inches in height, handsome dark blue flowers in June. Dozen, \$4.50; Three, \$1.25; One, 50c. Price, except where noted, Dozen, \$2.50; Three, 75c; One, 35c.

ALTHEA—See Hibiscus

AJUGA—Bungle

A splendid plant for covering the ground under trees, or amongst shrubs, or in odd corners where grass does not do well, flowers in May and June.

GENEVENSIS. Six to eight inches high, dense spikes of blue flowers.

REPTANS. Three to four inches, with deep purple flowers.

Dozen, \$2.50; Three, 75c; One, 35c.

ALYSSUM—Alyssum

SAXATILE COMPACTUM. A fine plant for the front of the border, or for rockeries; has great masses of broad, flat heads of yellow flowers. One of our best spring flowers. Dozen, \$2.50; Three, 75c; One, 35c.

ANCHUSA—Bugloss

ANCHUSA (Bugloss). Giant For-Get-Me-Not.

Real blue flowers are scarce; here are some of the best, the foliage is rather coarse, and they should be planted amongst shrubs, where their intense, sky-blue flowers show up to advantage, height about three feet, and blooming in May and June.

DROPMORE VARIETY. Rich gentian-blue flowers.

OFAL. Splendid large flowers of a lustrous light blue.

MYOSOTIDIFLORA. Don't be afraid of the name, it simply means that the flower is like a For-Get-Me-Not; which it is but in a glorified form. It's the most beautiful of our spring flowers, holds for over a month, and is in a class by itself. We only have a few to offer, 50c each, while they last.

Price, except where noted, Dozen, \$3.50; Three, \$1.00; One, 40c.

ANEMONE—Anemone

CANADENSIS. A splendid white flower from our eastern "woods", one foot in height, bearing a profusion of pure white flowers in June and July.

JAFONICA (Japanese Anemone). One of the most beautiful of our early autumn flowers, in bloom from August to November, large white flowers, splendid for cutting. Should be given a protection of leaves or litter in winter.

Dozen, \$3.00; Three, \$1.00; One, 40c.

ANTHEMIS—Camomile

This hardy Marguerite is one of the most satisfactory of our Yellow flowers, succeeding in any soil, grows about 15 inches high, and is in bloom continuously during the entire summer.

KELWAY'S CAMOMILE. A much improved variety introduced by one of the famous English hybridizers; splendid golden-yellow, daisy-like flowers. Dozen, \$3.50; Three, \$1.00; One, 40c.

TINCTORIA (Yellow Camomile). Handsome, finely cut foliage, and large bright yellow flowers. Dozen, \$2.50; Three, 75c; One, 35c.

AQUILEGIA—Columbine

The Columbine, our state flower, is too well known to need description. Few, however, are acquainted with the beauties of the new hybrids; they come in the most delicate shades of pink, blue, yellow and white. Try a few. You will be delighted with them. Two feet.

COERULEA. Our native blue Columbine.

CHRYSANTHA. A golden yellow everblooming variety.

CHRYSANTHA ALBA. A pure white flower.

SUTHERLAND LONG SPURRED HYBRIDS. Lovely colors running through shades of cream, pink, lavender, blue and white, hardly two alike.

SUTHERLAND CHOICE PINK SHADES. A selection of the choicest pink shades, the finest of all the Columbines, Dozen, \$3.50; Three, \$1.00; One, 35c.

Price of Aquilegia, except where noted, Dozen, \$2.50; Three, 75c; One, 30c.

ARABIS—Rock Cross

The most delightful of our early spring flowers, coming into bloom before the snow has gone. We have seen it buried beneath a foot of snow and come out as fresh as a daisy. A mass of pure white flowers all spring. Six inches. Price, Dozen, \$2.50; Three, 75c; One 35c.

Aerial Grace of the White Columbine

ARNERIA—Sandwort

MONTANA. A very pretty creeping plant, with fine large white flowers which appear early in the season, fine for edgings, or for a sunny spot on the rockery. Dozen, \$3.50; Three, \$1.00; One, 40c.

ARTEMISIA—Wormwood

LATIFLORA. Call it White Golden Rod and you will think it one of the most attractive tall growing plants you have seen. It grows three to five feet in height, has attractive foliage, and when in flower in the late summer and early autumn there is no white flowers in the garden that compares with it; if left to dry makes a most picturesque effect in the garden all winter. Use as a background for other flowers, and amongst shrubs, but do not plant in shade. Good cutting flower. Dozen, \$2.50; Three, 75c; One, 35c.

ASCLEPIAS—Butterfly Flower

TUBEROSA. Showy umbels of brilliant orange flowers in July and August, 2 to 2½ feet. Dozen, \$2.50; Three, 75c; One, 35c.

HARDY ASTERS—Michaelmas Daisy

For fall effects the Aster is one of our most attractive hardy plants; it has wonderful masses of bloom in September and October, in shades of white, pink, lavender and purple; combined with Boltonia, Artemisia, Golden Rod and Helenium, it is quite gorgeous. Novibergi varieties may be grown in partial shade, others should have full sun.

AMELLUS ELEGANS. A semi-dwarf, summer flowering Aster, 12 to 15 inches in height, with rich bluish-violet flowers in July and August, its compact growth makes it suitable for the front of the border. Dozen, \$3.50; Three, \$1.00; One, 40c.

FELTENHAM BLUE. A pretty aniline-blue, very free, 2 to 2½ feet.

LAEVIS FLORIBUNDA. An attractive light heliotrope. 4 feet.

NOVAE ANGLIAE. New England Aster. Bright violet-purple. 4 feet.

NOVAE ANGLIAE ROSEA. Bright purple-mauve. 4 feet.

NOVAE ANGLIAE LILY FARDELL. Very large flowers of a bright rose, almost pink; a very showy flower. 3 feet.

NOVAE ANGLIAE ROSEUM SUPRUBUM. A striking new aster, almost red, a profuse bloomer. 3 feet. Dozen, \$4.00; Three, \$1.25; One, 50c.

NOVI BELGI CLIMAX. The best and showiest blue, large pyramidal spikes of large lavender-blue flowers, one of the best for cutting. 3 to 4 feet.

NOVI BELGI WHITE CLIMAX. A counterpart of Climax with pure white flowers.

NOVI BELGI ST. EGWIN. A very pleasing shade of soft rosy pink, very free blooming, 2 to 3 feet.

Price, except where noted, Dozen, \$2.50; Three, 75c; One, 35c.

NEW HARDY ASTERS

MAGGIE PERRY. Very large flowers, frequently 2½ inches across, loosely arranged in large trusses, a pleasing tone of soft mauve. Most distinct and striking novelty. 3 feet. Dozen, \$4.00; Three, \$1.25; One, 40c.

PERRY'S WHITE. The largest and finest white, large flowers of pure white, on stout stems. 3 to 4 feet. Dozen, \$4.00; Three, \$1.25; One, 40c.

DWARF ALPINE ASTER

ALPINUS GOLIATH. A splendid little plant for the rockery or the front of the border, 6 to 10 inches in height, with large purple flowers in May and June. Dozen, \$3.50; Three, \$1.00; One, 40c.

ASTIBLE—Astible

These are the beautiful pink and white flowers sold by the florists at Easter; but they are just as much at home in the garden as in the greenhouse, should have a half-shady position, be kept moist, but do well in any ordinary garden soil. No garden flower is more dainty and graceful. 2 to 3 feet in height, and flower in June and July.

GLORIA. Brilliant dark pink, shaded lilac. Each, \$1.25.

PINK PEARL. Delicate pink. Each, \$1.25.

VESTA. Lilac-rose.

Price, except where noted, strong field-grown plants, each \$1.00.

The Dainty Boltonia

AUBRIETIA—Aubrietia

The daintiest and most delicately beautiful of all dwarf creeping plants for carpeting beds or rockeries, forming brilliant sheets of blue, crimson or purple for many weeks, splendid for using with Arabis and yellow Alyssum. A gem for planting in crevices of rocks or walls.

Crimson, Lilac and Purple, separate colors.

Dozen, \$3.00; Three, \$1.00; One, 35c.

BERGAMOT—See Monarda

BAPTISIS—Wing Indigo

AUSTRALIS. Dark blue pea-shaped flowers in June; both foliage and flowers are attractive. 2 feet. Dozen, \$2.50; Three, 75c; One, 35c.

BLEEDING HEART—See Dicentra

BOCCONIA—Plume Poppy

CORDATA. "A whole hardy perennial, beautiful in foliage and flower, flowers creamy white, growing 6 to 8 feet, adapted for planting in shrubbery, etc."

This is the description I read in most catalogues; I dig it out whenever I find it in a garden, but have some plants on hand if you wish them. It's a good plant—if you like it. Dozen, \$2.50; Three, 75c; One, 35c.

BOLTONIA—False Chamomile

Very showy flowers resembling the Hardy Asters, but blooming earlier, furnishing the garden with a sea of bloom during the late summer and early autumn months. Fine for cutting. Asteroides combines well with Salvia Azurea and Helenium; also with the Hardy Sunflowers.

ASTEROIDES. Pure white, five feet.

LATISQUAMA. Light pink, four feet. Dozen, \$2.50; Three, 75c; One, 35c.

BUDDLEIA—Summer Lilac—Butterfly Bush

One of the new plants, and properly a shrub, but as it has to be cut to the ground each spring we class it with hardy plants. It has most attractive, long racemes of lilac-like flowers from July almost until frost, and cannot be surpassed for cutting; is a great attraction for the butterflies. Comes from the root each year, and grows to a height of five to six feet. Allow plenty of space for it, as it makes a large shrub. Dozen, \$5.00; Three, \$1.40; One, 50c. Larger size 75c.

CAMPANULA—Bellflower

Beautiful bell-shaped flowers with great variety of height and form, from dainty little plants not much over six inches in height, to ones tall and stately in habit.

With the exception of the Canterbury Bells all are true perennials; and all are handsome and amongst the finest of our blue flowers.

CARPATICA. (Carpathian Harebell). A very pretty dwarf species, not exceeding eight inches in height; flowers clear blue, held erect on wiry stems, begins blooming in June and continues until October. A good plant for the front of the border or the rockery.

GLOMERATA. One of the old favorites with deep blue flowers in large close heads. June and July, one foot.

LATIFOLIA MACRANTHA. Enormous drooping bells of fine satiny lilac and deep purple shades. June and July, 3 feet. Dozen, \$3.50; Three, \$1.00; One, 40c.

LACTIFLORA COERULEA. A beautiful Bluebell with pale blue flowers in June and July, 2½ feet. Dozen, \$3.50; Three, \$1.00; One, 40c.

GIGANTEA MOERHEIMI. A beautiful big double white flower. June and July, 1½ feet. Dozen, \$5.00; Three, \$1.50; One, 50c.

MEDIUM (Canterbury-Bells). The best known of the Campanulas, and the showiest. Pink, White, Blue, 2 to 3 feet.

Price of Campanula, except where noted: Dozen, \$2.50; Three, 75c; One, 30c.

CERASTIUM—Cerastium

TOMENTOSA. (Snow-in-Summer). One of the prettiest of the dwarf plants, making a dense mat of greyish foliage, which in early summer becomes a sheet of small pure white flowers. A little gem, and especially well adapted for use as a ground cover for Lilies and other bulbous plants. Dozen, \$2.50; Three, 75c; One, 35c.

CHELONE—Turtlehead

LYONI. A handsome perennial about two feet in height, with numerous spikes of large pink flowers during the summer and fall.

Dozen, \$2.50; Three, 75c; One, 35c.

COREOPSIS—Coreopsis

LANCEOLATA. A very showy summer-blooming plant, with masses of flowers like giant Golden Marguerites. Splendid for cutting. Two feet. Dozen, \$2.50; Three, 75c; One, 35c.

HARDY CHRYSANTHEMUMS

This is the choicest of our Hardy Fall Flowers, coming after most flowers are gone, and again furnishing us with a wealth of color. Some varieties start blooming early, and continue until cut down by heavy freezes. Eva is in bloom in September, Blushing Bride, Canary Bird and Bronze Beauty in October, and all the varieties we offer can usually be depended upon to bloom before the heavy freezes. The early frost, unless accompanied by a freezing snow will not injure them; and should a heavy freeze occur a slight protection for a few nights will assure bloom. Last fall we cut a lot of blooms in November, placed them in water in the cellar, and had flowers for the house until after the middle of December. Nothing finer for cut flowers. Don't fail to plant some "Mums." We send out strong plants that will bloom this season.

SUTHERLAND CHRYSANTHEMUMS

Large Flowered Sorts

AUTUMN GLOW. Large rose-crimson, showy.

EVA. A somewhat dwarf plant, with large handsome pink flowers beginning to bloom in September and continuing through until heavy frosts. One of the best.

GLOW. A large deep pink.

GOLD QUEEN. A fine large golden yellow.

TINTS OF GOLD. Early, a glorious golden yellow aster-flowered sort. Plants only.

WEE WAH. A striking sort, rich terra cotta, shading to bronzy-yellow, with a fluffy centre. Plants only. Dozen, \$3.00; Three, \$1.00; One, 35c.

WM. H. WAITE. A large beautiful shell pink. Plants only.

RUBY KING. The finest red we have seen, a striking ruby-red. Plants only. Dozen, \$3.50; Three, \$1.00; One, 40c.

SUTHERLAND POMPONE CHRYSANTHEMUMS

BLUSHING BRIDE. A variety that never fails to bloom, flowers of a pleasing pink, shading lighter.

BRONZE QUEEN. A striking bronze shade, and a sure bloomer.

FIELD OF SNOW. Pure white.

FLORA. Golden Yellow.

WHITE DOTY. A very fine white, shaded cream. Plants only.

Price of Chrysanthemum, except where noted: Dozen, \$2.50; Three, 75c; One, 35c. Clumps, Dozen, \$3.50; Three, \$1.00; One, 50c.

CHRYSANTHEMUM COCCINEUM

Painted Lady

(Formerly known as Pyrethrum Hybridum)

A beautiful garden flower, much like the Shasta Daisy, but more loosely constructed, and in shades of pink, red and white. Dozen, \$3.00; Three, \$1.00; One, 35c.

CHRYSANTHEMUM MAXIMUM AND ARCTICUM

(See Shasta Daisy)

CONVALLARIA—Lily-Of-The-Valley

This favorite of the old fashioned garden, too well known to need description, well repays a little extra care. Spade in some well-rotted manure when making the bed, and each fall or spring give a top dressing of the same, and you will be more than gratified with the results.

Small plants, Dozen, \$2.00; Three, 75c; One, 25c.

Field Clumps, Dozen, \$4.00; Three, \$1.25; One, 50c.

DELPHINEUM—Hardy Larkspur

The Hardy Larkspur is the finest of our hardy blue flowers; has large spikes of beautiful flowers in shades of blue; blooms in June and if cut will furnish new crops of flowers during the summer and fall. Three to five feet.

If you notice the leaves starting to curl when the plant is a few inches high, spray with a nicotine preparation; red aphids sometimes attacks the plant early in the summer.

BELLADONNA. Delicate turquoise-blue.

SUTHERLAND HYBRIDS. A choice assortment of many beautiful shades of blue.

BELLAMOSUM. Has all the good qualities of the Belladonna, with the dark blue color of Formosum.

FORMOSUM. Dark blue.

Dozen, \$2.50; Three, 75c; One, 30c.

We have some large plants at—

Dozen, \$3.50; Three, \$1.00; One, 35c, and a few mammoth clumps at 50c each.

DESMODIUM—Teckclover

PENDULIFLORUM. A beautiful shrub-like plant covered with purple-red flowers in summer time. Strikingly beautiful. See page 20 for treatment. Dozen, \$7.50; Three, \$2.00; One, 75c.

DIANTHUS—Hardy Pinks

DELTOIDES. (Maiden Pink). A beautiful little plant with narrow leaves, and a great profusion of small crimson flowers in June and July. A splendid plant for the front of the border, or for the rockery.

DELTOIDES ALBUS. A charming white form of the above variety.

PLUMARIUS. (Grass Pink). The old-fashioned fringed kind with a delightful clove fragrance; the flowers range in color from white to delicate pink and rich crimson.

HER MAJESTY. A fine double white sort.

DOUBLE CLUSTER PINK. A most striking Pink, resembling a giant Sweet William. The flowers are a brilliant, deep scarlet, double, and borne freely all summer. One of the most satisfactory of the Pinks. Dozen, \$3.00; Three, \$1.00; One, 35c.

Price, except where noted. Dozen, \$2.50; Three, 75c; One, 35c.

DIANTHUS BARBATUS—Sweet William

Though a flower of the old fashioned garden Sweet William is not as often seen in our gardens as it should

be. It is one of the brightest of our flowers, and if the faded blossoms are removed it will continue in bloom until fall.

PINK BEAUTY. A beautiful Salmon Pink.

SCARLET BEAUTY. Rich, deep scarlet, very fine.

WHITE BEAUTY. Pure white.

SPECIAL MIXTURE. A fine mixture of colour running through white, pink and red shaded beautifully reticulated.

Named varieties, Dozen, \$2.50; Three, 75c; One, 35c. Mixed varieties, Dozen, \$2.00; Three, 65c; One, 25c.

DICENTRA—Bleeding Heart

An old fashioned plant with heart-shaped, rose-colored flowers in drooping spikes; should be given partial shade. Blooms in April and May, height 2 feet. Dozen, \$5.00; One, 50c.

DIGITALIS—Foxglove

Another of the old-fashioned flowers, dignified and stately, sometimes growing to a height of three to four feet, large stalks of flowers in shades of Purple, White and Rose.

Dozen, \$2.50; Three, 75c; One, 35c.

DORONICUM—Leopardbane

CAUCASICUM. (Caucasian Leopardbane). Large bright yellow flowers in early spring, particularly fine for cutting, as they last well in water. Dozen, \$5.00; One, 50c.

ECHIANCEA—Hedgehog Cornflower

PURPUREA. A plant that was formerly listed with the Rudbeckias; the flowers are similar in form to the Blackeyed Susan (rudbeckia Newman) but much larger, the plant also is taller. The flowers are a deep rose-color, and are very attractive when planted back of a clump of Sedum spectabilis. Dozen, \$2.50; Three, 75c; One 35c.

EUPHORBIA—Spurge

COROLLATA. (Flowering Spurge). A showy plant eighteen inches in height, with umbels of pure white flowers from June until August. Dozen, \$3.00; Three, \$1.00; One, 35c.

ERYNGIUM—Eryngo—Sea Holly

PLANUM. Finely cut spiny foliage and thistle-like heads of beautiful steel-blue flowers. A decorate plant for the hardy border, 2 to 3 feet in height, and the flowers, which continue from July to September may be dried and used in winter bouquets.

Dozen, \$3.50; Three, \$1.00; One, 40c.

EUPATORIUM—Hardy Ageratum

Hardy flowers much like the Ageratum in bloom from August to frost.

URTICAEOFOLIUM. Dense heads of pure white flowers which are fine for cutting, 2 to 3 feet.

COELESTINUM (Mistflower). Beautiful light blue flowers, carrying just a suggestion of pink in the centre, so that it combines well with pink flowers, particularly with our Bedding Rose, Ellen Poulson, for house decoration. Dozen, \$2.50; Three, 75c; One, 35c.

EULALIA—See Grasses

HARDY FERNS

Almost every garden has some out-of-the-way corner that is not sunny enough for flowers. Dig in some light soil, preferably leaf mould and plant a few of our Hardy Ferns; you will be delighted with the results.

The Ferns in our own fern bed, as pictured above, are planted in ordinary garden soil.

On the north of our house we have a bed about six feet by twenty, filled with Ferns, Forget-Me-Nots, Columbines and English Primroses; and it is the most delightful little garden plot I know of. Almost any backyard has a similar plot that can be made just as delightful. See Wild Flower List on page 33.

MAIDENHAIR FERN. (*Adiantum pedatum*). The most graceful of all the wood ferns, requires rich, moist soil, and a shaded location Plant one inch deep.

Dozen, \$2.00; Three, 75; One, 35c.

CHRISTMAS FERN. (*Polystichum acrostichoides*). An evergreen about a foot high, can be grown in shade in any good garden soil; plant crowns just below the surface.

Dozen, \$2.50; Three, 75c; One, 35c.

WOOD FERN. (*Aspidium spinulosum*). An evergreen fern, one and one-half to two feet in height, should have shade and a rich soil; crown should be planted just at the surface. A beauty. Large plants.

Dozen, \$3.50; Three, \$1.00; One, 40c.

HAYSCENTED FERN. (*Dicksonia punctiloba*). Splendid for masses; one and one-half feet in height; should have rich porous soil, but will grow well in sun or shade.

Dozen, \$2.50; Three, 75c; One, 35c.

Ferns In Our Home Garden

OSTRICH FERN. (*Onoclea struthiopteris*). A very handsome fern, as graceful as a palm. Sterile fronds will reach a height of two to four feet, with a width of six to ten inches; will grow in sun or shade. Use lots of well-rotted manure as this fern is a great feeder.

Large Plants, Dozen, \$3.50; Three, \$1.00; One, 35c. Clumps, Dozen, \$5.00; Three, \$1.35; One, 50c.

OSMUNDA CLAYTONIANA. A beautiful fern, two to three feet in height, that is suitable for growing in boxes or pots, as it thrives with much less moisture than most ferns. Should be grown in shade.

Extra Large Plants, Dozen, \$5.00; Three, \$1.35; One, 50c. Clumps, Dozen, \$7.50; Three, \$2.00; One, 75c. Mammoth Clumps, Each, \$1.00.

COMMON POLYPODY. (*Polypodium vulgare*). One of the best evergreen species for rock-work, and for front of fern beds; grows four to six inches high, and forms dense mats; at home in almost any kind of soil. Plant about six inches apart, and cover new buds slightly.

Dozen, \$2.50; Three, 75c; One, 35c.

FILAPENDULA—Meadowsweet

These elegant border plants, all of which have good foliage and feathery plumes of flowers; were until, recently, classed as SPIRAEAS. In the new "Standardized Plant Names" they have been placed in a separate group, to be known as FILAPENDULA. They are all plants that will attract attention, and while they do well

almost anywhere they are at their best when planted in half shaded location in rich, moist soil.

All the white *Filipendulas* combine well with *Peonies* and *Hemerocallis*. For Japanese *Spiraea* see *Astible*.

DROFWORT. A *Filipendula* with fine fern-like foliage and creamy-white flowers on stems about 18 inches high, in June and July. A beautiful little plant for the front of the border.

DOUBLE DROFWORT. Similar to above except that it is more dwarf, and has double foamy white flowers, borne at intervals all summer. A dainty little plant, but scarce.

Dozen, \$4.00; Three, \$1.15; One, 40c.

CAMTSCHATICA. (*Kamchatka Meadow-sweet*). Formerly called *Spiraea Gigantea*. A tall growing sort, about 4 feet, with immense heads of white flowers in August.

CARMINE MEADOWSWEET. Another tall variety, 4 feet, with beautiful rose-pink flowers in June and July. Dozen, \$5.00; Three, \$1.50; One, 50c.

PALMATA ELEGANS. Handsome foliage, and dainty silvery-pink flowers in June and July. 2 feet.

ULMARIA. Deep green foliage, and large heads of double white flowers in June and July. 2 feet.

Price of *Filipendula*, except where noted, Dozen, \$3.50; Three, \$1.00; One, 40c.

GAILLARDIA—Gaillardia

Large showy flowers, like giant *Marguerites*, in shades of orange, yellow and crimson, very striking, in bloom all summer. 18 inches to 2 feet. See illustration below.

Dozen, \$2.50; Three, 75c; One, 35c.

GALTONIA CANADENSIS (formerly called Hyacinthus Candicans.) Cape Hyacinth

A snow-white summer flowering *Hyacinth*, 3 to 5 feet in height, and gracefully surmounted with 20 to 30 pure white, bell-shaped flowers, valuable for making a bold group in the perennial border. Hardy in light soils, or may be taken up an stored like *Dahlias*.

Dozen, \$2.00; Three, 50c; One, 20c.

Gaillardia—Gorgeous, Flaring Orange Flowers

GEUM—Avens

Beautiful little plants with handsome foliage and large orange and yellow flowers that look like giant Strawberry Blossoms. Very showy flowers from May to July. 15 inches.

COCCINEUM. Brilliant scarlet flowers.

MRS. BRADSHAW. Double scarlet flowers. Dozen, \$2.50; Three, 75c; One, 35c.

HARDY ORNAMENTAL GRASSES

The Hardy Grasses are indispensable in making Garden Pictures, their airy, graceful foliage blending in

beautifully with the flowers and shrubs. No garden is complete without them. They vary in height from two to ten feet, so are adapted to the smallest or the largest garden. Towards fall all of them have beautiful plume-like heads which keep in good condition all winter in either house or garden. No plant we have to offer will give you greater pleasure.

The plumes if cut just after opening make attractive bouquets for winter, and will keep in good shape for many months, can be colored. The grass formerly known as *Eulalia* is now called *Miscanthus*.

MISCANTHUS SINENSIS—Eulalia

All four varieties of *Eulalia* offered below are splendid plants for giving boldness and variety to the perennial border.

MAIDEN GRASS. (E. Gracillima). Narrow foliage, 3 feet, plumes about five feet.

STRIPED EULALIA. Foliage green with a broad stripe of white down the centre, 4 to 5 feet, plumes 5 to 6 feet.

SINENSIS. (Japonica). Foliage dark green, 6 feet, plumes 8 feet.

ZEBRA GRASS. (Zabrina). Foliage bright green with narrow bands of yellow across the leaves. 5 to 6 feet, plumes 6 feet.

TENNISETUM. Hardy Fountain Grass. Narrow, foliage about 3 feet in height, with bronzy-purple flower heads. Very attractive in garden, and splendid for use with dried flowers. Dozen, \$2.50; Three, 75c; One, 35c.

Price of Grasses, except where noted; Dozen, \$3.50; Three, \$1.00; One, 40c; Clump, 50c.

FOXGLOVE (See Digitalis)

GYPHOPHILA—Gypsophila—Baby's Breath

PANICULATA... A fine plant for using amongst other perennials, or in the shrub border, grows 2 to 3 feet in height, and in June to August is covered with a mass of minute pure white flowers, forming a beautiful gauze-like appearance, makes a splendid combination with other cut flowers.

Dozen, \$2.50; Three, 75c; One, 35c.

PANICULATA FL. PL. The well-known Double Baby's Breath, seedlings that should come about eighty per cent true.

Dozen, \$3.50; Three, \$1.00; One, 35c.

Mammoth plants that have bloomed, and guaranteed true. Each, \$1.00.

HELENIUM—Helen Flower

Helen Flower, named after the celebrated *Helen of Troy*, who is said to have availed herself of the cosmetic properties of the plant. This tall growing plant, often reaching a height of five to six feet, bears in late summer and early fall great masses of yellow, orange, or bronze colored flowers. It is the most striking of the autumn flowers, especially when used in connection with *Artemisia*, *Asters* and *Boltonia*. The flowers last well in water if cut with not too long stems.

AUTUMNALE. Golden yellow flowers during late summer and fall months. Very brilliant.

BIGELOWI. A new variety about two feet in height, and blooming in July and August, large bright golden yellow flowers, brown centered.

DAINTY. Light yellow flowers with a dark brown centre. One of our own productions.

RED. Deep shades of reddish-brown, almost a terra cotta; one of the most striking.

RIVERTON GEM. We formerly called this *Bronze Beauty*, a very fitting name, as the flowers are rich shade of bronze and gold. Beautiful.

Price, except where noted. Dozen, \$2.50; Three, 75c; One, 35c.

HELIANTHUS—Hardy Sunflower

Perennial *Sunflowers* should be planted in masses against a background of shrubs, or at the rear of the Hardy Perennial Border. They are profuse bloomers, and make a gorgeous effect in yellow; combine well with *Boltonia*, *Artemisia* and *Helenium*.

MISS. MELLISH. Large single sunflowers of bright golden yellow, one of the best.

MAXIMILIANI. The latest, and tallest grower, graceful sprays of yellow flowers in October. 6 feet.

MULTIFLORUS. Think of this as the best double yellow garden flower; it has large double golden yellow flowers from July until frost:

they are good for cutting and make a splendid show in the garden.

Dozen, \$2.50; Three, 75c; One, 35c.

HELIOPSIS—Heliopsis

Much like the Hardy Sunflowers, but the flowers are smaller, come earlier in the summer, and are borne on long stems, making them fine for cutting.

PITCHER HELIOPSIS. Single flowers of a deep golden yellow, July and August. 3 feet.

ZINIA HELIOPSIS. Large attractive double orange-yellow flowers on good stems for cutting. A new variety that will become very popular when better known. July and August. 2 feet.

Dozen, \$2.50; Three, 75c; One, 35c.

HEMEROCALLIS—Day Lily

These delightful Day Lilies are among the most satisfactory of our hardy garden flowers; many of them have exquisite fragrance; and the large, lily-like flowers vary in color from the palest yellow to the deepest orange. They vary in height from about one foot to six, and in time of bloom from the first of June to the last of August. They are not surpassed for cutting, as the tiniest buds will open up in water, and if the faded blossoms are picked off they will be most attractive in the house for ten days or longer.

I'd like to plant some of these in every garden. I have a large group of them, all the different sorts I grow, around the little pool in my own garden; I wish you might see them. They are a constant joy from June to September, as the different varieties come and go. Try a few. We are growing eight or ten sorts we have not yet catalogued.

AURANTIACA MAJOR. (Great Orange Day Lily). Large flowers of a rich Indian yellow. Three to four feet. July.

CITRINA HYBRIDS. Citrini is a handsome new species from China, with light lemon-colored flowers, borne on tall slender stems 4 to 5 feet in height; the new hybrids are great improvements on the Chinese species with large, well-expanded flowers of perfect form and great durability, are the latest to bloom, continuing until September. A most beautiful sort.

Dozen, \$5.00; Three, \$1.50; One, 50c.

DUMORTIERI. (Early Day Lily). Dwarf, orange-colored flowers, brown on outside, the earliest to bloom. May.

FLAVA. (Lemon Lily). Fragrant deep yellow flowers. Two and one-half feet. June.

FLORHAM. Rich, golden-yellow flowers, in bloom for a long season. Three feet. July.

FULVA. (Tawny Day Lily). The old-fashioned orange Day Lily. Four to five feet. July.

GOLD DUST. Tall, flowers a beautiful bright Indian-yellow, reverse of petals bronzy-gold. Two and one-half feet. July.

KWANSO. Large double flowers of a deep, orange, shaded crimson, remains longer in bloom than any other variety. Four feet. August.

ORANGEMAN. A large flower of a deep shade of orange, with a brilliant sheen. Two to three feet. July.

QUEEN OF MAY. The finest of the Day Lilies, tall grower with quantities of large flowers of a bright golden-yellow. Very fine. June and July. Dozen, \$3.50; Three, \$1.00; One, 40c.

THUNBERGI. (Japanese Day Lily). The latest to flower; rich buttercup-yellow, funnel-shaped flowers. July and August.

Price of Hemerocallis, except where noted, Dozen, \$2.50; Three, 75c; One, 35c.

HIBISCUS—Marshmallow

ALTHEA is the botanical name but the old is so well known I have adhered to it.

Tall growing, showy plants, with large single flowers on the order of a Single Hollyhock. For best effects plant amongst shrubs, where their immense flowers show off to good advantage late in the summer when the shrubs have done blooming.

CRIMSON EYE. Flowers of immense size; pure white, with a large spot of deep velvety crimson in the centre.

Dozen, \$2.50; Three, 75c; One, 35c.

NEW GIANT FLOWERING MARSH-MALLOW. A wonderfully improved form, with immense flowers, frequently ten to twelve inches in

diameter, in bloom from July until almost frost. Mixed Colors, Dozen, \$2.50; Three, 75c; One, 35c. Separate colors, Red, Pink or White. Dozen, \$3.50; Three, \$1.00; One 40c.

Extra large plants, 50c each.

HOLLYHOCK

No need to describe these beautiful flowers, you have seen them in every old fashioned garden. Nothing more strikingly beautiful than a row of these along a fence or trellis. Have you seen the single Hollyhocks? They are the ones always painted by artists. The Allegheny semi-double ones are almost as artistic.

DOUBLE HOLLYHOCKS. In separate colors, Pink, Red, White and Yellow.

NEW ALLEGHENY. Immense semi-double flowers with fringed edges. Very beautiful. Dozen, \$2.50; Three, 75c; One, 35c.

Single. In mixed colors. Artistic.

Price of Hollyhocks, except where noted, Dozen, \$2.00; Three, 65c; One, 25c.

Great Orange Day Lily

HOSTA—Formerly called

FUNKIA—Plantain Lily

Splendid dwarf plants with handsome foliage, some varieties being variegated with white or yellow. The flowers are lily-like and come in shades of lavender and lilac; Subcordata being white. All the varieties have broad, handsome foliage and are splendid for bordering beds. One and one-half to two feet.

COERULEA. Broad leaves and lavender-blue flowers. September.

LANCEOLATA. Narrow leaves and lavender-blue flowers. September.

SUBCORDATA GRANDIFLORA. Very large white, lily-like, fragrant flowers. August and September.

Dozen, \$5.00; Three, \$1.40; One, 50c.

UNDULATA VARIEGATA. Graceful deep green leaves with a fluted white edge. A striking plant for edging beds, etc.

Price of Funkia, except where noted, Dozen, \$2.50; Three, 75c; One, 30c.

HYPERICUM—St. Johnswort

There is no more strikingly beautiful hardy flower than the Hypericum. It has large golden-yellow flowers, 2½ inches in diameter and foliage that is attractive even when the plant is not in bloom.

MOSERIANUM. (Gold Flower). Rich Golden-yellow flowers, made more attractive by numerous yellow stamens and crimson anthers, in bloom the entire season. 1 foot.

Large clumps, each, \$1.00.

PATULUM HENRYI. Similar to Moserianum, but more upright in habit, and hardier. Dozen, \$5.00; Three, \$1.50; One, 50c.

IBERIS—Hardy Candytuft

SEMPERVIRENS. A very desirable dwarf plant, 8 to 10 inches high, foliage evergreen which is hidden with dense heads of pure white flowers in the early spring.

Dozen, \$3.50; Three, \$1.00; One, 40c.

Japanese Iris—Queen of the Garden

IRIS

Don't have a garden without the Iris. It has a peculiar charm that appeals irresistibly to those of refined taste. Its soft, iridescent colorings and its frail orchid-like formations are so rare and ethereal in their beauty, it is hard to believe that this modern Iris is the successor of the once common "Flag" of the old-fashioned garden. Our collection of Iris will be found one of the most comprehensive in the country, and on novelties our prices are much lower than those of the eastern Iris "Specialists." The Iris is our particular fad, and we offer the finest varieties to be had anywhere. "S" represents Standards or upright petals; "F", the lower or drooping petals.

STANDARD COLLECTION

BRIDESMAID. S. pale violet, F. deeper reticulated violet-purple.

EDITH. S. light plumage-blue, F. purple violet with white veins.

HONORABILIS. S. bright Indian-yellow, F. chestnut red.

Mm. CHEREAU. S. and F. pure white daintily edged with light blue.

MRS. DARWIN. S. and F. pure white, slightly reticulated with violet at base. General effect, pure white.

PLICATA. S. bright purple, F. a deeper shade, a striking sort.

BLUE QUEEN. S. a beautiful light blue, F. slightly deep in shade.

Dozen, \$1.50; Three, 60c; One, 25c; One Hundred, \$10.00.

CHOICE BLUE AND PURPLE SHADE

All of this collection have very large flowers, most of them being fragrant.

ALBERT VICTOR. One of the finest of the lavender-blues, a beauty.

CAPRICE. S. and F. light purple blending to soft lavender at base of petals. Dozen, \$3.50; Three, 75c; One, 30c.

CELESTE. Pale azure-blue, very dainty.

FLORENTINA BLUE. A very free blooming purple-blue, fine for massing.

JUNTA. S. and F. clear blue, deeper than Delmatica. Tallest of bearded Iris. Large fragrant flowers. Dozen, \$4.50; Three, \$1.20; One, 50c.

LA BEAUTE. A large flower of a bright sky-blue, one of the finest. Dozen, \$3.50; Three, \$1.00; One, 35c.

MADAM BRAYNARD. S. and F. of an even shade of rich, deep purple, very fine.

MADAM POQUETTE. A tall variety, deep rosy claret. Dozen, \$2.00; Three, 60c; One, 25c.

MONSIGNOR. S. richest satiny violet; F. deep purple-crimson. Very large and one of the best. Dozen, \$2.50; Three, 75c; One, 35c.

PALLIDA DELMATICA. Similar to Albert Victor, considered by many one of the best lavender-blues. In our estimation, not up to Albert Victor, nor as hardy.

PALLIDA ODORATISSIMA. Large, deep lavender-blue flowers, delightfully fragrant.

Dozen, \$2.50; Three, 75c; One, 30c.

PURPUREA GRANDIFLORA. S. and F. deep purple with a wine-red reflex.

ROYAL PURPLE. The finest of the purples, a large, artistic-looking flower. An even shade of deep, royal-purple. Dozen, \$5.00; Three, \$1.35; One, 50c.

SPECIOSA. An early large claret-purple. Dozen, \$2.00; Three, 50c; One, 25c.

ZANARDALIA. Bright light blue. S. somewhat darker than falls; F. horizontal. This is one of the very best blue Iris.

Dozen, \$4.50; Three, \$1.20; One, 50c.

Price, except where noted. Dozen, \$2.00; Three, 60c; One, 25c.

THE BEST PINK SHADES

HER MAJESTY. S. rose-pink; F. bright crimson, tinged darker, general effect pink. One of the best. Dozen, \$2.50; Three, 75c; One, 35c.

QUEEN OF MAY. S. and F. soft rosy-lilac, almost pink. Very pleasing. Dozen, \$2.00; Three, 75c; One, 30c.

ROSE UNIQUE. S. and F. delicate blush rose. An early flowering Iris, and much admired. Dozen, \$2.50; Three, 75c; One, 30c.

THE BEST YELLOWS

GIANT YELLOW. A tall grower, over three feet in height, has narrow drooping foliage and bright golden-yellow flowers, make an artistic plant, fine for margin of pools and streams; belongs to Ochroleuca group.

Dozen, \$3.50; Three, \$1.00; One, 40c.

GOLD QUEEN. A very fine bright, golden-yellow Iris, S. and F. the same shade.

GOLDEN PLUME. S. rich golden yellow; F. chestnut brown, edged and reticulated yellow. The best yellow and brown variety. Dozen, \$2.00; Three, 60c; One, 25c.

HELGE. An early lemon-yellow, has more flowers than any Iris we know of.

MRS. NEBRONNER. A good golden-yellow.

SHERMAN WRIGHT. The best yellow Iris to date, very free blooming and a pure golden-yellow, a most beautiful flower. Dozen, \$3.50; Three, \$1.00; One, 40c.

Price, except where noted. Dozen, \$2.50; Three, 75c; One, 30c.

THE BEST WHITES

FLORENTINA ALBA. A large, early white, slightly tinged lavender.

INNOCENZE. A pure paper-white, free flowering, the best white we know of. Dozen, \$3.50; Three, \$1.00; One, 35c.

MRS. DARWIN. S. and F. pure white, slightly reticulated violet at base, general effect pure white.

GIANT WHITE. A tall grower, about three feet in height; narrow foliage, and beautiful flowers of a pure glistening white; one of the most artistic Iris. Dozen, \$3.50; Three, \$1.00; One, 35c.

SNOW QUEEN. See Siberian Iris; also other whites in Dwarf Section.

Price, except where noted, Dozen, \$2.00; Three, 60c; One, 25c.

NOVELTIES

This group is made up of odd shades; Isolene being one of the most beautiful and striking Iris we have seen.

ELDORADO. S. yellowish-bronze, shaded with heliotrope; F. bright purple shaded bronze. A most beautiful and pleasing combination. Dozen, \$4.50; Three, \$1.00; One, 40c.

GRAND SULTAN. S. old gold; F. deep, rich plum, a very handsome Iris.

Dozen, \$3.50; Three, \$1.00; One, 40c.

IRIS KING. A very showy Iris with immense flowers. S. old gold; F. crimson-maroon, edged yellow. One of the best.

Dozen, \$4.25; Three, \$1.50; One, 50c.

ISOLENE. This is the Queen of Iris, immense, strikingly beautiful flowers; S. pink; F. rose, shaded mauve.

Dozen, \$3.50; Three, \$1.00; One, 40c.

LOHENGRIIN. S. and F. soft mauve, shading to nearly white, a tall strong growing variety. One of the best of the Pallidas.

Dozen, \$2.50; Three, 75c; One, 35c.

MRS. W. E. FRYER. S. white, shaded heliotrope; F. purple-crimson, bordered a lighter shade, white veins from centre to base. One of the best of the New Iris. Each \$1.00.

PERFECTION. S. lavender, flecked with a deeper shade; F. rich, velvety lavender. A very fine Iris with a wonderful amount of bloom. Dozen, \$2.50; Three, 75c; One, 35c.

RHINE NIXIE. S. pure white; F. raspberry-purple, edged white. A splendid grower that is always to be depended upon; one of the finest and most striking in the whole list.

Dozen, \$2.50; Three, 75c; One, 35c.

SIBERIAN IRIS

These are amongst the most delicate and elegant of the Iris family, have narrow grass-like foliage, and delicately formed flowers of blue and white.

SIBERICA. Tall growing, with dainty flowers of a purple-blue.

SIBERICA ALBA. Similar to Siberica but having pure white flowers.

ORIENTALIS. Large flowers of a most brilliant blue.

O. BLUE KING. Large handsome clear blue flower.

O. GEO. WALLACE. An extra tall sort, with azure-blue flowers.

O. SNOW QUEEN. Large flowers of a pure snowy whiteness, with a delicate satiny texture to the petals. A most beautiful white Iris.

Dozen, \$2.50; Three, 75c; One, 30c.

DWARF IRIS

These lovely little Iris come into bloom about a month before the taller sorts, a time when flowers are scarce in the garden, and are particularly useful as a border for beds or for planting in front of the taller Iris.

CYANEA. Deep royal purple, delightful fragrant.

LUTEA. Golden-yellow.

NOVA CANDIDA. Very dwarf with a profusion of white flowers.

SNOWCUP. Very large, pure white flowers; the best white. Dozen, \$3.50; Three, \$1.25; One, 50c.

SNOWDROP. Another fine large white.

STEWART. Very large flowers of a brilliant

golden-yellow, by far the best dwarf yellow, as brilliant as Sherman Wright.

Price, except where noted, Dozen, \$2.50; Three, 75c; One, 30c.

JAPANESE IRIS

The Japanese Iris are the most gorgeous of the Iris family, making one think of immense Orchids. They are perfectly at home in Colorado and need no special care. A rich soil and plenty of water from the time they show bud until after the blooming season being their only requirements. We offer them in a splendid assortment of colors. No finer assortment can be found in the country. See illustration page 8.

WHITE, Orange centre40c.

WHITE, blue veins40c.

LAVENDER and white40c.

DEEP Blue40c.

ROYAL Purple40c.

Assorted colors from a fine lot of named varieties, our selection, all beautiful. Dozen, \$2.50; Three, 75c; One, 35c.

KNIPHOFIA—Torchlily

Don't be afraid of the name; its almost a crime to call this gorgeous flower by such a tongue-twister. Call it Torchlily. The foliage is similar to that of the Hemerocallis—grass-like—varying from 12 inches to 2 feet, from the centre of which appears tall stems terminating in a spike of bloom that reminds one of a Red Hot Poker—if you ever saw one. Its gorgeous, anyway. Does well in any soil, but responds quickly to liberal treatment; should be given some protection, or taken up in the fall and stored in sand. Its worth any amount of trouble; nothing like it in the garden. See illustration page 1.

FOLIOSA. (Sword Torchlily). A strong grower, blooming in May. It has immense flower cones, 10 to 12 inches long on 3 foot stems, orange-red, shading to yellow as bloom matures. Does not seem to need protection. Immense plants.

Dozen, \$5.00; Three, \$1.50; One, 50c.

Add five cents per plant if wanted by mail.

PFITZERIANA. (Bonfire Torchlily). An ever-blooming sort, from August to October, spikes 3 to 4 feet high, with heads of bloom of a rich orange-scarlet; makes a grand effect planted singly or in masses.

Dozen, \$3.50; Three, \$1.00; One, 35c.

RUPA. (Early Torchlily). More dwarf than the other sorts, but a little beauty, to me one of the most attractive flowers I have ever seen. The flowers are a pale orange-yellow, with an airy, artistic look, and are borne freely from July until frost.

Dozen, \$5.00; Three, \$1.50; One, 50c.

LAVANDULA—Lavender

OFFICINALIS. This is the true Sweet Lavender; grows about 18 inches in height; delightfully fragrant blue flowers in July and August. \$3.50; Three, \$1.00; One, 40c.

LATHYRUS LATIFOLIUS—Perennial Pea

These are but little known here, but are very popular in England. They are hardy varieties of the Sweet Pea, grow four to five feet in height, and are charming climbers for covering trellises, arbors, etc. Separate colors. White, Pink and Red. Dozen, \$2.50; Three, 75c; One, 35c. One of each color, \$1.00.

LIATRIS—Gayfeather

PYCNOSTACHYA. Nothing will attract more attention than the Gay Feather on account of its unusual appearance; it is also beautiful as well as odd. It blooms in midsummer, throwing up long narrow spikes of rich purple flowers which last a long time, and are a great attraction for the butterflies.

Dozen, \$2.50; Three, 75c; One, 35c.

HARDY LILIES

Most people have the idea that it is difficult to grow Lilies; but they are no more difficult than many other flowers if their particular characteristics are understood.

First they must have drainage, or the bulbs will rot. Place several inches of sand under and over them; and under the sand place broken stone, gravel or coal cinders and ashes, 3 to 4 inches deep.

Fertilizer of ANY kind must not come in contact with the bulbs; they need rich soil, but the fertilizer should be placed below the dammage, and AROUND the bulbs.

The varieties marked with a * should be planted eight to twelve inches deep, the larger bulbs the deeper; and other varieties plant six inches deep. Bone meal may be lightly stirred in over the bulbs when they are growing.

The ground in which the bulbs are growing should be shaded. They may be planted amongst shrubs; or a shallow-rooted creeping plant may be planted over them. *Cerastium*, *Myosotis*, *Phlox subulata*, and the Dwarf *Sedum* are all good. Following these simple directions you should have no trouble in growing the Lilies we offer—they are the Queens of the Garden, and are worth all the care that may seem necessary for growing them successfully.

***AURATUM**. Gold Banded Lily of Japan. One of the most magnificent of the lilies, has large, graceful fragrant flowers, composed of six petals of a delicate white, thickly studded with crimson spots, and striped through the centre with a band of golden-yellow. Regular size, Dozen, \$3.50; One, 35c.

Mammoth Bulbs, Dozen, \$5.00; One, 50c.

***BATEMANI**. A handsome Lily with flowers of a rich apricot shade.

Dozen, \$5.00; One, 50c.

CANADENSE. A beautiful native of the eastern woods with bell-shaped blossoms varying from yellow to red, 3 to 5 feet.

Dozen, \$2.50; one, 25c.

Mammoth Bulbs, Dozen, \$4.00; One, 40c.

DAVURICUM. A beautiful lily from Siberia, of easy culture, with upright scarlet flowers, dotted black.

Dozen, \$3.50; One, 50c.

ELEGANS. Large tulip-shaped blossoms of varying shades of orange, yellow and red, one of the brightest and easiest to grow. 2 feet.

Dozen, \$3.50; Three, \$1.10; One, 40c.

***HENRYI**. A new Japanese lily that has made a sensation in Europe, resembles the *Speciosum*, but the flowers are bright orange-yellow. Very hardy.

Dozen, \$6.50; Each, 75c.

KRAMERI. Two to four feet high, finely formed flowers six inches or more in length, and as much across, of a beautiful clear pink.

Dozen, \$6.50; One, 75c.

PHILADELPHICUM. Wild Orange-Red Lily. Has one to two upright, open, bell-shaped flowers of reddish-orange. A beauty, 18 inches to 2 feet.

Dozen, \$2.50; One, 25c. Extra sized bulbs, Dozen, \$3.50; One, 40c. ,

REGALE. This new variety from China is considered one of the most beautiful garden lilies, is 3 to 5 feet in height, blooms in July, and is perfectly hardy. Has large trumpet-shaped, delicately scented flowers, ivory white, shaded pink, and tinged with canary yellow at the base of the petals. Dozen, \$7.50; One 75c. Extra size, 90c.

RUBELLUM. A beautiful small lily, varying in color from deep rose-pink to almost white. Does best in a light soil.

Dozen, \$6.50; One, 75c.

***SPECIOSUM ALBUM**. A Japanese variety that does well in our gardens, has large white flowers of great substance, with a yellowish band running through the centre of each petal.

Dozen, \$3.50; One, 35c. Mammoth Bulbs, Dozen, \$5.00; One, 50c.

***SPECIOSUM MAGNIFICUM**. A gorgeous variety with large white flowers spotted and splashed with bright crimson.

Dozen, \$3.50; One, 35c. Mammoth Bulbs, Dozen, \$5.00; One, 50c.

SUPERBUM. (Turk's Cap Lily). A beautiful native American variety, yellow, spotted orange. 3 to 6 feet.

Dozen, \$3.50; Three, \$1.00; One, 40c.

***TIGRINUM SPLENDENS**. Improved Tiger Lily. Bright orange-red spotted black, very showy. Will grow anywhere. Large bulbs.

Dozen, \$2.50; One, 35c.

***TIGRINUM FL. FL.** A very fine double variety of the Tiger Lily, showy orange-red flowers, spotted black. Large bulbs.

Dozen, \$2.50; One, 35c.

LINUM—Flax

PERENNE. A beautiful little plant for the rockery or the front of the border, with light, graceful foliage, and large bright blue flowers borne all summer. 1½ feet.

Dozen, \$2.50; Three, 75c; One, 35c.

LILY-OF-VALLEY—See *Convallaria*

LIMONIUM—Sea-Lavender

LATIFOLIA. (Bigleaf Sea-Lavender). Formerly known as *Statice latifolia*.

Do you know the Baby Breath? Well this is a flower with all the dainty grace of the Baby-breath, plus a delicate lavender color. The foliage is handsome, bright and waxy-looking, and is attractive in the garden until winter sets in, while the Babybreath has nothing to recommend it but its flowers. The flowers hold well in the garden, and may be cut and dried like the babybreath. One of the gems of the garden.

Dozen, \$3.00; Three, \$1.00; One, 35c.

LUPINUS—Lupine

Amongst the showiest of our hardy garden flowers, producing large spikes of flowers in May and June. We have been unable to offer these for several years, but now have a fine stock.

POLYPHYLLUS. A fine, clear blue. 18 inches to 2 feet.

ROSEA. A dainty pink.

ALBA. Pure white.

NEW HYBRIDS. Beautiful shades on pink, rose, lavender, yellow, white, etc.

Dozen, \$2.50; Three, 75c; One, 35c.

Lupin—Stately, in Robes of Satin Pink

LYCHNIS—Campion

Hardy plants of easy culture, thriving in any soil, have the most brilliant, showy blossoms of any of the red flowers.

CHALCEDONICA. Maltese Cross. Tall plants with heads of vivid scarlet flowers in June and July. One of the brightest of the garden flowers. 2 to 3 feet.

CORONARIA. Rose Campion. Formerly known as *Agrostemma*. Erect growing plants with silvery foliage, which contrasts well with the bright, showy flowers. June and July. 2 to 3 feet.

Dozen, \$3.00; Three, \$1.00; One, 35c.

CORONARIA. Walker's Variety. A deeper, brighter rose color. Very attractive. Dozen, \$3.00; Three, \$1.00; One, 40c.

DOUBLE RAGGED ROBIN. A splendid double red variety; fine for cutting.

Except where noted, Dozen, \$2.50; Three, 75c; One, 35c.

LYSIMACHIA—Loosestrife

CLETHROIDES. (Loosestrife). Long, recurved spikes of pure white flowers from July to September; foliage colors beautifully in fall. 2 feet.

NUMMULARIA. (Moneywort). Valuable for growing under trees, and odd corners where grass will not grow. A fine ground cover.

Dozen, \$2.50; Three, 75c; One, 35c.

MERTENSIA—Blue Bells

VIRGINICA. One of the most attractive of our early spring flowers, with panicles of baby-blue flowers, turning to pink as they mature. The foliage disappears toward midsummer, so that Pansies or any shallow rooting annual may be planted over them, thus giving two periods of bloom. 1 foot.

Dozen, \$2.50; Three, 75c; One, 35c.

MONARDA—Beebaum

Very showy plants, 2 to 3 feet in height, with aromatic foliage, and producing their bright flowers during July and August. Especially well adapted for using in front of shrubs, or amongst the dwarfier kinds, where their brilliant flowers will show up to good advantage when the shrubs are through blooming.

DIDYMA. Brilliant scarlet.

CAMBRIDGE SCARLET. Brilliant crimson-scarlet.

Dozen, \$2.50; Three, 75c; One, 35c.

MYOSOTIS—Forget-Me-Not

We have a hardy Forget-Me-Not that is a continuous bloomer throughout the entire season, was in bloom as late as November last fall. It has the old-fashioned flowers of bright sky-blue, makes a most attractive bed or border, and is splendid for cutting. One of our choicest flowers. Does best in partial shade but will grow in full sun. Do not confuse with the common Forget-Me-Nots, which are mostly annuals and biennials.

BLUE.

PINK. Does not spread as rapidly as the blue, but is one of the daintiest little flowers grown.

Dozen, \$2.50; Three, 75c; One, 35c.

PENSTEMON—Penstemon

PENSTEMON TORREYI. A tall growing plant with bright coral-red flowers throughout the summer and fall months. It sends up quantities of tall slender stalks terminating in long spikes of brilliant flowers somewhat like a snapdragon. You will always find the humming birds around this plant. June to fall. 2 to 3 feet.

DIGITALIS. Large spikes of white flowers with purple throats. Very effective in masses. 2 to 3 feet. June and July.

GLOXINOIDES "SENSATION." A beautiful strain with spikes of large Gloxinia-like flowers in a great variety of bright colors, rose, cherry, crimson, purple, lilac, etc. In bloom from June until frost. Only hardy with protection; but worth replacing each year for cutting, if for no other purpose.

Dozen, \$2.50; Three, 75c; One, 35c.

PACHYSANDRA—Japanese Spurge

Catalogued as the best ground cover, with beautiful glossy foliage, and lauded to the skies by some eastern nurseries; but we have not found it worth growing.

Dozen, \$3.50; Three, \$1.00; One, 40c.

PAPAVER ORIENTALE—Oriental Poppy

These beautiful flowers are better planted in the fall; as the loss from spring planting is very heavy.

SUTHERLAND'S FRAGRANT PEONIES

We have a very fine collection of Peonies, but as they have to be dug very early in the spring, we only offer our full collection for fall planting. The following sorts we have dug and can ship them any time during the spring months.

To be successful with Peonies they should be planted in soil that is free from any traces of fresh fertilizer, and should be planted so that the crown (see the red buds) should not be more than one, or at the outside, two inches below the level of the ground. Deeply planted peonies will not bloom.

Be sure and send for our Fall Peony List. We have over a hundred of the best standard varieties, with many of the latest novelties and not at Novelty Prices.

One Plant of Peony—Festiva Maxima

ALEXANDRE DUMAS. A brilliant pink, interspersed with salmon, white and chamois. One of the greatest bloomers. 75c.

COURONNE D'OR. Large, semi-rose type, pure white with a ring of yellow stamens around a tuft of yellow centre petals. Late, tall and a free bloomer, and one of the best whites. \$1.00.

DELACHE. A dazzling red rose-type peony. Very fine. \$1.00.

DUCHESSE DE ORLEANS. Medium large, compact, deep pink, centre shaded salmon, with silvery reflex. Fragrant, strong grower, and a free bloomer. 50c.

EDULUS SUPERBA. The Memorial Day Peony. A very large flower of a clear mauve-pink, fragrant, and can usually be depended upon for Decoration Day. 50c.

FELIX CROUSSE. A brilliant ruby-red, large and fine in every way. \$1.00.

FESTIVA MAXIMA. Very large; one of the finest whites, centre petals splashed with crimson. 60c.

FLORAL TREASURE. A large flower of a beautiful shade of soft pink; one of the best all-around peonies. 60c.

MME. DE VERNEVILLE. Very large finely formed flower, guard petals white, centre rose-white with carmine touches; fragrant, and an ideal cut flower. One of the very best whites. 60c.

PERFECTION. Large double flowers of a delicate shell-pink, base of petals shaded deeper; fragrant; vigorous; a good peony in every way. 50c.

MARY STUART. Very large flowers of deep lilac-rose, centre petals pale lavender. A very fine pink. 65c.

OFFICIAL RUBRA. The brilliant red Peony seen in the old-fashioned gardens, but which is now very scarce. \$1.00.

PEONIES Special Offer

One each of a good named variety of white, pink and red, our selection for \$1.00, delivered.

Phlox, "Peachblow"

SUTHERLAND'S HARDY PERENNIAL PHLOX

The Hardy Phlox are the showiest of our garden flowers, coming in many shades of pink, white, red and lavender, and if handled properly may be kept in bloom from early summer until late fall. After the main head of flowers has faded it will send out another crop of flowers; then this head should be pinched off, when new buds will quickly develop from the sides of the stem, these in turn should be picked after fading; and in this way a continuous crop of bloom may be had. Phlox do best when given plenty of water; they should be planted to a depth of two or three inches, and the ground around them should be kept loose. Our prices are for good, strong, field-grown plants that will bloom the first season. Two to three feet.

This year we have added many next sorts to our collection of Phlox, but will not be ready to offer them before next fall.

BAUR'S PINK. A pleasing shade of soft rose-pink. Very attractive.

EUROPA. White, with a decided crimson-carmine eye.

JULES SANDEAU. A large, fine free-flowering pure pink.

Dozen, \$3.50; Three, \$1.00; One, 35c.

MISS LINGARD. The best Phlox in cultivation; has immense heads of beautiful white flowers from June to October, splendid bright glossy foliage a month ahead of other varieties. Dozen, \$3.00; Three, 85c; One, 35c.

MRS. JENKINS. Immense panicles of pure white; the best all-around white.

PROF. VIRCROW. Bright carmine, overlaid with orange-scarlet.

Dozen, \$3.50; Three, \$1.00; One, 35c.

R. P. STRUTHERS. Bright rosy-carmine, with a claret-red eye. Very brilliant and showy.

RYNDSTROM. Lively rose-pink, much like the Paul Neyron Rose, immense trusses of flowers. Dozen, \$3.00; Three, \$1.00; One, 35c.

VON LASSBURG. Splendid pure white flowers in large trusses.

WIDAR. Light, reddish-violet, with a very large white centre which intensifies and illuminates the color.

Price of Phlox, except where noted, Dozen, \$2.50; Three, 75c; One, 35c.

HARDY GARDEN PINKS—See Dianthus

PEACHBLOSSOM. An attractive flower of a delicate peach-blossom, pink.

Dozen, \$3.00; Three, \$1.00; One, 35c.

PHLOX SUBULATA—Moss or Mountain Pink

A creeping Phlox with pretty moss-like evergreen foliage, which in May and June is completely hidden under masses of bloom. A splendid plant for the rockery, or to be used as a ground cover. One of the best for growing over lily bulbs.

WHITE. Pure white flowers.

LILAC. Dainty light lilac flowers.

ROSEA. Bright rose-pink flowers, very showy. Dozen, \$2.50; Three, 75c; One, 35c.

DWARF PHLOX

AMOENA. One of the best for carpeting the ground or for the rockery. It grows but four inches high, and in spring is a sheet of bright pink flowers.

Dozen, \$3.00; Three, \$1.00; One, 35c.

DIVARICATA. (Blue Phlox). A native of the eastern woods, but a beautiful little variety that should be in every garden; throughout April and May it bears large fragrant lavender flowers on stems 10 inches high. Most attractive.

Dozen, \$2.50; Three, 75c; One, 30c. Extra large clumps, Dozen, \$3.50; Three, \$1.00; One, 50c.

PHYSOSTEGIA—False Dragonhead

A handsome medium-growing plant with spikes of pink or white flowers in July and August. The white is particularly good for cutting.

VIRGINICA. Delicate pink.

ALBA. Pure white flowers.

Dozen, \$2.50; Three, 75c; One, 35c.

POTENTILLA—Cinquefoil

Charming plants for the border, with brilliant single or double flowers through shades of yellow, orange, bronze and red; borne in profusion from June to August, 18 inches.

Dozen, \$3.50; Three, \$1.00; One, 35c.

POLYGONUM—Fleeceflower

MARbled FLEECEFLOWER. A novelty from China, with leaves variegated in striking colors in the early spring. The ground color is green, with variegation of white, yellow and red. Very striking.

Dozen, \$5.00; Three, \$1.25; One, 50c.

PLATYCODON—Balloonflower

A most attractive blue flower, similar to the Canterbury Bell, but much larger, and a true perennial, about two and one half feet in height, and in bloom from July to October, makes a splendid show in the garden.

GRANDIFLORA. Large blue flowers.

GRANDIFLORA ALBA. Large white flowers.

JAPANESE DOUBLE. Large double flowers.

Dozen, \$3.50; Three, \$1.00; One, 40c.

Price, except where noted, Dozen, \$2.50; Three, 75c; One, 30c.

PLUMBAGO—Plumbago

LARPENTAE. A beautiful little blue flower, in bloom from early summer to fall, is dwarf in habit, only 6 to 8 inches in height, and has beautiful deep blue flowers.

Dozen, \$2.50; Three, 75c; One, 35c.

PRIMULA—Primrose

PRIMULA. The English Primrose is the most exquisite of our spring flowers, in color, form and fragrance. It should be grown in the shade, in a fairly light soil. It runs through a large range of colors, in yellow, brown, orange, buff, red, etc.

Dozen, \$2.50; Three, 75c; One, 35c.

PULMONARIA—Lungwort

One of the earliest of our spring flowers, has flowers of beautiful azure-blue, much like an English primrose. Eight inches.

AZUREA. Sky-blue flowers.

Dozen, \$2.50; Three, 75c; One, 30c.

MRS. MOON. Beautiful variegated leaves, and pink flowers, makes a most attractive edging for a bed.

Dozen, \$3.50; Three, \$1.00; One, 35c.

PYRETHRUM—Painted Daisy
See *Chrysanthemum Coccineum*

RANUNCULUS—Buttercup

ACRIS. A pretty form of the double Buttercup, and one that does not become weedy. Very fine for cutting, and makes a good combination with White Columbine. May and June.

Dozen, \$2.50; Three, 75c; One, 30c.

RUDBECKIA—Coneflower

These are amongst the brightest and showiest of our yellow flowers, and make a wonderful display in the garden, besides being fine for cutting. Each variety has a name of its own. July to September.

GOLDEN GLOW. The well-known double yellow flower. Six feet.

AUTUMN GLORY. An attractive single flowered sort, five to six feet in height with long broad petals of bright primrose yellow.

SPECIOSA. Black-Eyed Susan. Deep orange-yellow flowers with a black cone centre. Most attractive. July to September.

SUBTOMENTOSA. Sweet Coneflower. Taller than the Blackeyed Susan, flowers yellow, with a dark brown cone centre. Very handsome.

Dozen, \$3.00; Three, \$1.00; One, 35c.

TRILOBATA. Has large clusters of small golden-yellow flowers with black centres. Very fine for planting amongst shrubs. July to September.

Price of Rudbeckia, except where noted.

Dozen, \$2.50; Three, 75c; One, 35c.

SALVIA—Meadow Sage

Beautiful blue flowers, much like Larkspur in appearance, but easier to grow and hardier. They grow three to four feet in height and bloom in the late summer and autumn months. Three feet.

AZUREA. Light blue.

FITCHERI. Deep, rich blue.

Dozen, \$3.00; Three, \$1.00; One, 35c.

NEMEROSA. A very handsome dwarf variety with dark blue blossoms.

Price, except where noted, Dozen, \$2.50; Three, 75c; One, 30c.

SCABIOSA—Scabiosa

A very fine blue flower for cutting. Should have full sun and well-drained soil. Keeps a long time in water. A most attractive flower.

CAUCASIA. A soft and most pleasing shade of lavender-blue, in bloom from June to September, 18 to 24 inches.

Dozen, \$3.50; Three, \$1.00; One, 40c.

SEDUM—Stonecrop
Dwarf Varieties

Suitable for Rock Garden, carpet-bedding, and for covering graves. We frequently use it in place of grass in odd corners. Very attractive foliage retaining its color most of the winter.

EWERSI. A pretty little variety with bright light green foliage.

Dozen, \$2.50; Three, 75c; One, 35c.

ACRE. A dwarf sort, makes a splendid ground cover, flowers yellow.

STOLONIFERA. Another good dwarf variety with pink flowers. Dwarf sorts hold their foliage all winter and are very attractive at that time. Dozen, \$2.50; Three, 75c; One, 30c.

ERECT—GROWING VARIETIES

SPECTABILIS. One of the prettiest erect-growing varieties with broad light green foliage, and immense heads of handsome showy rose-colored flowers in early fall, 18 inches.

BRILLIANT. A rich colored form the Spectabilis with amaranth-red flowers.

Dozen, \$2.50; Three, 75c; One, 35c.

SHASTA DAISY—Botanically
Chrysanthemum Maximum

EARLY VARIETIES

This class blooms in May and June, and can always be depended upon for Memorial Day, a time when garden flowers are scarce. Margaret of Denmark, and Glory of Wayside are particularly attractive, and brighten up the late spring garden immensely.

EARLY GEM. A new sort we recently obtained from England, which on account of its dwarf habit is unusually valuable for an edging, growing only about one foot in height. Its Marguerite-like flowers are borne in quantities on slender stems, and are fine for cutting.

Dozen, \$3.50; Three, \$1.00; One, 40c

DOUBLE MEMORIAL. A fine double-flowered Marguerite.

Dozen, \$3.50; Three, \$1.00; One, 40c.

GLORY OF WAYSIDE. Another dwarf variety with fine large flowers.

Dozen, \$3.00; Three, \$1.00; One, 40c.

MARGARET OF DENMARK. A variety we obtained in Holland before the war, and one of the best early sorts. The flowers are dainty, and carried on long, strong stems, making them fine for cutting. We have cut these by the thousands for Memorial Day.

Dozen, \$3.00; Three, \$1.00; One, 35c.

Giant Flaring Blue Bells of the Balloonflower
(*Platycodon*)

MAY QUEEN. Another new English variety, blooming in May. Plants are robust in habit, and flowers are large, on long stems, height 2 feet.

Dozen, \$3.00; Three, \$1.00; One, 35c.

SUMMER BLOOMING VARIETIES

ALASKA. One of the best of the large-flow-ered sorts, and more uniform in growth than most.

BURBANK'S IMPROVED. The well-known Burbank Shasta Daisy.

Dozen, \$2.00; Three, 75c; One, 25c.

KING EDWARD. An English variety with enormous flowers.

MRS. C. LOWTHIAN BELL. This magnificent white Marguerite is the largest of this class, flowers frequently measuring six inches across, with very broad petals of great substance. 2½ to 3 feet.

Dozen, \$3.50; Three, \$1.00; One, 40c.

AUTUMN VARIETIES

ARCTICUM. (*Arctic Daisy*, *Chrysanthemum Arcticum*). This is a gem amongst the autumn-blooming flowers. It forms an attractive rosette-like clump of pretty dark green foliage, and in September multitudes of flower stems appear, terminated by pure white flowers 2 to 2½ inches in diameter. They begin to develop in September and continue through in good condition until November. As they fade they assume a pinkish tinge, making them most attractive. One of the best new plants introduced in years.

Dozen, \$3.50; Three, \$1.00; One, 35c.

ULIGINOSUM. (*Giant Daisy*). Grows three feet high, and is covered with large daisy-like flowers during the late summer.

Dozen, \$2.50; Three, 75c; One, 35c.

SIDALCEA—Prairiemallow

ROSY GEM. Erect growing, branching plant with bright rose-colored mallow-like flowers in June and July, 3 feet.

Dozen, \$2.50; Three, 75c; One, 35c.

SILENE—Catchfly

SCHAFTA. (*Autumn Catchfly*). A charming border or rock plant about 4 inches high, with masses of bright pink flowers from July to October.

Dozen, \$2.50; Three, 75c; One, 35c.

SPIRAEA—See Filapendula

Herbaceous Spiraeas are now classed as "Filpendula."

STACHYS—Betony

GRANDIFLORA. A new hardy plant with pinkish-lavender flower somewhat resembling a Penstemon, 18 inches, flowering in June and July.

Dozen, \$2.50; Three, 75c; One, 35c.

STATICE—Thrift

ARMERIA. An attractive dwarf plant with evergreen tufts of bright green foliage, innumerable dense heads of purple flowers on stiff wiry stems, ten to twelve inches high, from early spring to late fall. A good rockery plant, or for the front of the border.

Dozen, \$3.00; Three, 90c; One, 35c.

STOKESIA—Stokesia

LAEVIS. (*Cyanea*). Generally described as a plant with handsome lavender-blue centaurea-like flowers, 4 to 5 inches across, from July to October, succeeding in any open, sunny position. Perhaps it is not sunny enough in Boulder, for it has not flowered well with us.

Dozen, \$2.50; Three, 75c; One, 35c.

SWEET WILLIAM—See Dianthus Barbatus

THALICTRUM—Meadowrue

Delicate foliage like a Maidenhair Fern, very attractive even when not in bloom.

ADIANTIFOLIUM. Delicate foliage, splendid for using with cut flowers.

AQUILEGIFOLIUM. A taller sort with beautiful white flowers.

Dozen, \$2.50; Three, 75c; One, 35c.

THYMUS—Thyme

VULGARIS. (*Common Thyme*). An old garden plant, grown as a sweet herb, flowers small, lilac or purple; foliage fragrant. Fine for rockeries.

Dozen, \$2.50; Three, 75c; One, 35c.

TUNICA—Tuniceflower

SAXIFRAGA. A dainty little plant with tufted foliage, and quantities of pretty little pink flowers produced freely all summer. Useful for front of border or rockery.

Dozen, \$2.50; Three, 75c; One, 35c.

TRITOMA—See Kniphofia

TRITONA—Tritona Formerly called Montbretia

Beautiful little summer-flowering bulbs, with dainty blossoms of yellow, orange and red. Bulbs may be taken up for the winter, or if covered with a heavy covering of leaves or litter they will come through the winter in the best of shape. July and August. 2 to 3 feet. Very attractive, and fine for cutting.

CROCOSMAEFLOA. Pure yellow, reverse of petals orange; large flowers.

PROMETHEUS. Large, rich orange, marked with deep red at centre.

Dozen, \$1.50; One, 20c.

TROLLIUS—Globeflower

Beautiful flowers in shades of yellow and orange, like a giant double buttercup. A rare flower and very scarce. Can furnish it in yellow or orange. 18 inches.

Dozen, \$5.00; Three, \$1.35; One, 50c.

Clumps, Each, \$1.00.

VERONICA—Speedwell

INCANA. (*Wooly Speedwell*). A pretty little dwarf plant, suitable for edgings; has silvery foliage, and numerous bright blue flowers. 6 inches.

LONGIFOLIA SUBSESSILIS. (*Clump Speedwell*). One of the most brilliant of our garden blue flowers; forms a bushy plant 2 to 3 feet high, with long, dense spikes of deep blue flowers from July to September.

REPENS. (*Creeper Speedwell*). A very pretty little creeping plant with attractive light blue flowers.

SPURIA. (*Amethystina*). Very beautiful amethyst-blue flowers in June and July. 2 feet. Very attractive.

TEUCRIUM. (*Hungarian Speedwell*). An unusually attractive dwarf variety we obtained in Holland before the war, and which we do not find offered in this country. The foliage is light green, mottled with yellow, and bright blue flowers. 6 inches.

TEUCRIUM RUPESTRIS. (*Rock Speedwell*). A fine rock plant, 3 to 4 inches high, thickly matted deep green foliage, hidden in spring under a cloud of bright blue flowers.

SPICATA. (*Spike Speedwell*). Long spikes of attractive blue flowers in June and July. 18 inches.

Dozen, \$2.50; Three, 75c; One, 35c.

VALERIANA—Valerian

OFFICINALIS. (*Common Valeriana*, or *Hardy Garden Heliotrope*). Produces showy heads of rose-tinted white flowers during June and July, with a delicious, strong heliotrope odor.

Dozen, \$2.50; Three, 75c; One, 35c.

VINCE—Periwinkle

MINOR. Trailing Myrtle.

VIOLA—Violet

No flower is a greater favorite than the Violet; and there is no garden that does not have at least a little spot that can be given up to it. All the Violets we offer are perfectly hardy, and while they do well in almost

any location they are at their best in partial shade. In our own garden we have had Sweet-scented Violets in bloom in February.

DOUBLE SWEET-SCENTED ENGLISH VIOLET. Dainty and very fragrant.

DOUBLE RUSSIAN. Has large, double, deep purple flowers of exquisite fragrance.

GOV. HERRICK. A large single clear blue flowers, and sweetly scented.

PRINCESS OF WALES. Broad pansy-like flowers of a beautiful violet-purple shade, very free flowering.

PALMATA. A wild violet with palm-like foliage and attractive single blue flowers.

PAPILIONACEA. Butterfly Violet. A robust grower, with large flowers of lavender-blue. Dozen, \$2.50; Three, 75c; One, 35c.

VIOLA CORNUTA—Tufted Pansy

One of the very best edging plants for the hardy border; when properly cared for the plants remain in bloom from early spring to late frosts; we have picked them in December. To keep them blooming shear the plants several times during the summer. These are delightful little plants that should be in every garden; the flowers are like small pansies but borne in great profusion all summer. Our plants are sent out with the earth attached to the roots, so that they should go right along blooming.

ADMIRATION. Light blue.

BLUE PERFECTION. Deep Blue.

PURPLE QUEEN. Deep purple.

MIXED. A fine assortment in blues, purples, lavenders, white and yellow.

Dozen, \$2.00; Three, 65c; One, 20c.

TWO VERY FINE NEW VIOLAS

BIZARRE. A new and most extraordinary coloring, the two upper petals being pure violet-purple, the lower three clear apricot.

APRICOT. A beautiful rich shade of apricot, a most unusual color in flowers. We had just a few plants of this new Viola last season and everyone fell in love with it.

Dozen, \$3.00; Three, \$1.00; One, 35c.

WALLFLOWERS

The old favorite English Sweet-scented Wallflower in brown, yellow and orange shades, comes into bloom as early as March and it not affected by snows and freezes.

Dozen, \$2.50; Three, \$1.00; One, 35c.

YUCCA—Adams Needle

FILAMENTOSA. Among hardy ornamental plants this is near the head, has broad sword-like foliage three to four feet high, and branched spikes of fragrant, drooping, creamy-white flowers in June and July.

Dozen, \$3.50; Three, \$1.00; One, 35c.

Dainty Bud of the Hybrid Tea Rose

HYBRID PERPETUAL ROSES

These are large growing Roses, with very large, full, fragrant flowers in immense quantities in June and July, and if cut back after flowering will produce numbers of flowers during the summer and fall months. They are more hardy than the Hybrid Tea Roses, and are very satisfactory in every way. There are no handsomer Roses than these.

We offer large, field-grown, dormant plants, on their own roots; sure to grow and bloom. They should be cut back to 10 or 12 inches in height when planted.

ANNE DE DIESBACH. Bright, deep, clear pink, of large size; fine bud and open flower.

CAPTAIN CHRISTY. Beautiful, deep green foliage, flowers of pale peach, deepening towards centre; in bloom most of the season.

CLIO. Delightful satiny-flesh, tinted white, flowers large and globular, and borne on long stems.

FRAU KARL DRUSCHKE. Pure snow-white, long-pointed buds, and immense full flowers; the ideal white rose, very free bloomer.

Sutherland Garden Roses

All of the Roses offered in our list are perfectly at home in Colorado Gardens. The Hybrid Tea Roses should be protected in the winter by a covering of leaves, which should not be allowed to become matted, as the plants will then rot, or earth may be heeled up around the plants to a depth of six to eight inches, and then hoed away in the spring. Hybrid Perpetuals may be treated in the same manner, though they are hardy without protection in many localities. Our plants are all LARGE, STRONG, FIELD-GROWN stock, practically all of them on their own roots, so that they will not sucker as will grafted ones. There is no better stock in the country, and our prices compare with any. You will be pleased with our Roses.

GEORGE AHRENDTS, OR PINK FRAU KARL DRUSCHKE. A tender rose-colored form of the popular Druschke; has the large size and free-flowering habits of its parent, and in addition is highly perfumed.

GEN. JACQUEMINOT. Brilliant scarlet-crimson, an old favorite, and one of the best Roses grown.

HENRICH MUNCH. Soft pink, very large and full, vigorous grower. One of the finest pink roses.

HUGH DICKSON. Intense crimson, shaded scarlet, very large, full and magnificent form, pronounced sweet fragrance.

MRS. JOHN LAING. Soft Pink, of beautiful form, exceedingly fragrant, and remarkably free-flowering, stands at the head of the list.

PAUL NEYRON. Another of the old favorites, immense flowers of a deep rose, delightfully fragrant. See illustration page 17.

PRINCE CAMILLE DE ROHAN. Rich, dark maroon-crimson, shaded scarlet, a magnificent rose.

ULRICH BRUNNER. Large, cherry-red, of fine form. One of the best.

Price: Extra strong, dormant, field-grown plants, none better offered anywhere. Each, 75c. One dozen, in twelve varieties, delivered anywhere in Colorado for \$8.50.

This is the same class of Rose as to size, quality and variety that sell for \$12.00 per dozen in the east, and you pay delivery charges. We deliver free in Colorado.

EVERBLOOMING ROSES—Hybrid Teas

This class of Rose has dainty buds, mostly pointed, with full, fragrant flowers, like the greenhouse roses you are so familiar with. They are in bloom all summer, and are at their best in the early fall months. Last year they bloomed with us as late as November. Should be given winter protection of leaves or litter, or hilled up with earth.

We are offering extra strong, two-year, field-grown plants that will bloom freely this summer. Should be cut back about half after planting. No finer stock can be had.

THE SUTHERLAND DOZEN

This is a collection of twelve choice Roses offered to amateur who is not familiar with the many varieties of roses now offered, and who only finds a large list confusing. It embraces a wide range of color, and each rose is a beauty, and one of the best of its color.

CAROLINE TESTOUT. Large full, globular flowers, of bright, satiny rose, very free and fragrant; the rose that made Portland famous as the Rose City.

CRUSADER. Strong, heavy growth, free-flowering on strong stems, color a rich, velvety-crimson.

DUCHESS OF WELLINGTON. Intense saffron-yellow, flushed crimson, changing to deep coppery-yellow, buds long and pointed; considered by many the best yellow.

EDITH PART. A novel and distinct blend of colors, rich red with a suffusion of deep salmon and coppery yellow; very sweetly scented.

GEN. S. A. JANSSEN. Deep, glowing carmine; large, full, deep flowers carried on robust, stiff stems; very free.

KILLARNEY BRILLIANT. A rich, glowing shade of rosy-carmine, long, pointed buds, very free.

KILLARNEY WHITE. Similar to Killarney Brilliant, but double pure white in color; perhaps the best white.

LADY URSULA. A magnificent rose; exceedingly free, blooming during the entire summer and fall months. Flowers are produced on every shoot, are large, full and of great substance and perfect form, color a delightful tone of flesh-pink; delicately tea-scented.

MME. FERNET DUCHER. A splendid yellow rose, a rare color in Hybrid Tea Roses.

MRS. CHAS. BELL. A shell-pink sport from the famous Radiance, than which there is no more beautiful garden rose.

RADIANCE. An ideal bedding rose, blooms freely in the hottest weather; a brilliant carmine-pink, with salmon-pink and yellow shadings at the base of the petals. A rose for every garden.

RED LETTER DAY. A beautiful rose of infinite grace and charm. Its velvety, brilliant, glowing scarlet-crimson buds and fully opened cactus-like flowers never fade. Awarded S. G. Medal, N. R. S.

Strong, two-year, field-grown plants of these splendid Roses, 75c each. One dozen in twelve sorts, \$8.50.

You will find this same class of Roses, in the same varieties, offered by most eastern nurseries at \$12.00 per dozen. Our prices pay delivery charges to any point in Colorado.

TEN HYBRID TEA ROSES OF EXCEPTIONAL MERIT

GRUSS AN TEPLETZ. The most brilliant scarlet-crimson rose, a strong grower, and in bloom all summer. Hardy without protection. Each, 75c.

HADLEY. Deep velvety-crimson, retaining its color at all seasons; buds large and well formed, a free bloomer with a delicate fragrance. 75c.

HERMOSA. An old favorite, hardy and vigorous, of a pleasing shade of pink. Always in demand. 75c.

K. OF K. (Kitchner of Khartoum). A startling dazzling semi-single rose of intensest scarlet of absolutely pure color. Its huge petals are velvet, sheened, solid scarlet throughout. Awarded a Gold Medal, Nat. Rose Society. \$1.00.

LOS ANGELES. Considered one of the finest roses ever introduced; growth is vigorous,

flowers large, of luminous flame-pink, toned with coral, and shaded with translucent gold at the base of the petals, buds long and pointed. A magnificent rose. \$1.00.

MME. BUTTERFLY. A magnificent rose of strong, free habit, large flowers of a brilliant pink, suffused apricot and gold. \$1.00.

MME. EDOUARD HARRIOT. Known as The "Daily Mail Rose". Buds are coral-red, shaded yellow at the base; when open the flowers are of a superb coral-red, shaded will yellow and bright rosy-scarlet, passing to shrimp pink. Unusually fine. \$1.00.

MRS. AARON WARD. A lovely Indian-yellow rose, making a beautiful bud, and opening to just as beautiful a full bloom, compact in growth, but vigorous. \$1.00.

SOUVENIR DE CLAUDIUS PERNET. The new and most famous yellow rose, awarded the Bagatelle prize. A most vigorous grower, buds long and pointed, and carried on long stiff stems, very large flowers with elongated petals, color a most striking sunflower-yellow, deeper in the centre, without any color blending, and which is retained without fading in the hottest weather. Strong two year plants, \$2.25.

WM. F. DREER. A beautiful rose, which for delicacy of coloring is not comparable to any other variety, reminding one of the delicate tints of water lilies. The flowers are similar in shape to the celebrated Los Angeles, color a soft, silvery shell-pink, the base of the petals are a rich golden-yellow, which, at certain stages of development gives a golden suffusion to the entire flower. Very choice. Strong two year plants, \$1.25.

HARDY GARDEN ROSES

All of this class are strong-growing hardy Roses, and should be treated as Shrubs, and grown in the shrub border. Tausendschon, though a Climbing Rose, makes a very fine effect when planted among Shrubs, especially when placed back of a medium-growing variety, where its shoots will entwine themselves with the branches of the shrub, and make it appear an immense Rose Bush. Trier is also a very fine variety to plant with the medium-growing shrubs, as its foliage is good at all times, and it is practically ever-blooming.

HARRISON'S YELLOW. A large growing shrub with a multitude of golden-yellow, semi-double flowers. Very showy, and an old favorite. Large field-grown plants, 90c.

HYBRID SWEET BRIER. Read the description of these lovely roses on page 24.

PERSIAN YELLOW. Similar to Harrison's Yellow, with bright yellow, nearly double flowers of exquisite form. Strong field grown plants \$1.00.

RAGGED ROBIN. A strong growing hardy variety often used for hedges, free from disease; flowers semi-double and deep crimson. 75c.

SOLEIL D'OR. A most striking Rose, large, full flowers of a deep yellow, shaded burnt-orange. Unlike any other Rose. Each, \$1.00.

TRIER. One of the finest Roses for using with shrubs, has fine, clean foliage and large

Our Bedding Roses in Garden of Mr. W. P. Robinson, Denver, Colorado

sprays of creamy white, semi-double flowers all summer. The finest hardy ever-blooming Rose. Each, 75c; Dozen, \$8.00.

ROSA RUGOSA—Japanese Roses

The most beautiful foliage of any Rose, with large single or semi-double flowers, followed by immense red fruits that remain on the bushes in good condition until spring.

AGNES E. CARMA. Deep, brilliant crimson, double.

ALBA. Large single white.

CONRAD F. MEYER. Double, flowers, large, of a pleasing shade of silver-pink.

F. J. GROOTENBORST. A dwarf, everblooming Rugosa, with flowers of a dazzling scarlet. Blooms until very late in the season. Each, \$1.25.

NOVA ZEMBLA. Double flowers of fine form, white shading to pink. A most attractive rose.

RUGOSA. Single rosy-carmine.

Each, \$1.00; Set of six, \$5.00.

THE FAMOUS HUGONIS ROSE

Although this Rose was only introduced from China a few years ago, it has already become famous, as it is distinct from any other Rose. It makes a large shrub, about six feet in height, and nearly as broad, has good foliage, and makes a symmetrical bush. Its delicate single yellow flowers are produced on long arching sprays early in May, a month before any other Rose, making a gorgeous show when few other shrubs are in bloom. Try this Rose. There is nothing like it. Perfectly hardy. Strong two-year, field-grown plants. \$2.00.

SUTHERLAND COLORADO BEDDING ROSES

Have you seen our Colorado Bedding Roses? We have used large quantities in these Denver gardens: Mr. R. G. Dill's, 2655 Ash street; Mr. R. J. Hall's shrub border, 2561 Birch street; Mr. Ralph O. Dietler's, 1673 St. Paul street; Mr. Henry M. Blackmer's, 975 East Seventh avenue; Mr. W. P. Robinson's, 1700 East Third avenue. Most of these plantings you can see from the street. These are dwarf Roses, ideal for bedding, have large clusters of good-sized Roses, in a fine assortment of colors, and are never out of bloom from early June until late frosts. The early frosts do not affect them, and last fall they were in bloom in our Denver gardens late in November. There is no other class of Roses as fine for our Colorado gardens. We have carried them through the winter in our own garden in Boulder for seven or eight years absolutely without protection, but would suggest for most localities a light covering of brush, or better still, draw the earth up around them so as to cover the stems for about six inches, then in the spring hoe the earth away.

BABY DOROTHY. A delightful little rose with clear, brilliant pink flowers. A very free bloomer.

ECHO. A rosy flesh-pink, large flowers much like Tausendschon in appearance, strong and very free bloomer. Flowers keep well after cutting.

ELLEN PAULSON. A beautiful shade of deep pink, large flowers in immense clusters. The best pink.

JESSIE. Another splendid sort with bright cherry-crimson flowers produced freely all summer, and enduring well on the plants.

JOAN D'ARC. Pure white, large trusses of full, well-formed flowers, very free bloomer.

MME. N. LAVAVESSEUR. Compact in habit, a continuous bloomer, flowers bright crimson.

ORLEANS. Bright geranium-pink, flowers not crowded but of beautiful arrangement. A very pleasing color.

Price of FANCY BEDDING ROSES, each 75c; Dozen, \$8.00; delivered anywhere in Colorado at above prices.

SUTHERLAND HARDY CLIMBING ROSES

While all the Climbing Roses we offer are hardy under ordinary conditions, we sometimes have extraordinary conditions in Colorado, so, to insure bloom—for climb-

ing roses bloom on the old wood—it is wiser to give some protection during the winter. This may be a covering of burlap, or burlap and straw, or the roses may be taken down and laid on the ground, and covered with brush or earth; care will have to be taken, however, to start uncovering early, so that the roses will not start into growth under the covering. About four years out of five they will come through our winters without protection.

Paul Neyron—A Massive Ball of Glowing Pink

AMERICAN PILLAR. Beautiful single flowers, three to four inches in diameter, of a lovely shade of pink, with a white eye and a cluster of yellow stamens. The flowers are borne in immense clusters, and a plant in full bloom is a wonderful sight.

BESS LOVETT. Resembles Climbing American Beauty in shape of flower, but is brighter in color, a clear bright red, of good size, double full cupped, and lasts a long time in good condition; a strong vigorous grower, and very fragrant. Each, \$1.00.

CHRISTINE WRIGHT. One of the newest and most promising Climbing Roses. The flowers are double, three and one half to four inches in diameter, borne singly or in clusters, beautiful in bud or full flower; a refreshing bright wild-rose pink in color.

CLIMBING AMERICAN BEAUTY. A beautiful rose with flowers almost as large as the American Beauty, but a more pleasing color, being a rich rose pink, a splendidly formed double rose.

DOROTHY PERKINS. Soft shell-pink flowers borne in great profusion, fragrant and lasting. One of the best climbing roses.

DR. W. VAN FLEET. Has beautiful shaped flowers, and very dainty buds, of rich flesh-pink, on long stems, splendid for cutting.

EXCELSA. A counterpart of Dorothy Perkins, but with brilliant rose-red flowers, makes a wonderful show when in bloom.

FLOWER OF FAIRFIELD. An everblooming variety of the well-known Crimson Rambler. A most brilliant color and a satisfactory rose as it furnishes flowers over a long period. Each, \$1.00.

GARDINIA. A very fine rose with buds of a bright yellow opening into double flowers of a cream color; incurving towards evening to the shape of a Cape Jessamine. Very fine for cutting, and a splendid rose for covering banks and terraces, and the best yellow.

HAWATHA. A most showy climber, has single ruby-carmine flowers with a clear white eye and a mass of golden stamens. There is nothing more striking in a climbing rose.

PAUL'S SCARLET CLIMBER. This is a most gorgeous Climbing Rose, the flowers are a brilliant scarlet, of good form, semi-double, very freely produced, the plants being literally cover-

Glorious Flowers of The Trumpet Vine

ed from top to bottom. There is nothing like it. Try this.

ROSERIE. Another new Climbing Rose that is making many friends; similar in habit and flower to the famous Tausendschon, but a deep and even shade of cerise-pink, or carmine; a strong vigorous grower and free bloomer. A magnificent Climbing Rose. Each, \$1.00.

SILVER MOON. Beautiful semi-double flowers four and a half inches in diameter, pure white, cupped, a large bunch of stamens adds to its attractiveness.

TAUSENDSCHON. Distinct from any other climber, and one of the finest. The individual flowers are of an elegant and graceful form, semi-double, and a most delicate shade of pink when first opening, changing to a carmine on the reverse of the petals when fully expanded, produced in immense trusses, which are splendid for cutting. One of the very best.

TRIER. Not as tall a grower as most, should be planted with shrubs or grown against a low wall or fence. The foliage is more attractive than that of most climbers, and the large semi-double flowers, in long sprays, are borne in great quantities throughout the summer, each new shoot bearing a spray.

WHITE DOROTHY. The best white climber, having all the good points of Dorothy Perkins, but with flowers of a pure, glistening white.

Price of Climbing Roses, except where noted, strong, two-year, field-grown plants, 75c.

We have some Dorothy Perkins, Excelsa, White Dorothy and Tausendschon that failed to make as long shoots as we require for our No. 1 grade, and are offering them at 50c. We also have a few of the same varieties in extra sized plants, at \$1.00.

SPECIAL OFFER

For the colors represented, white, pink, red, yellow, rose and double-toned colors, there is nothing finer than Dorothy Perkins, Excelsa, White Dorothy, Tausendschon, Gardenia, Paul's Scarlet and Hiawatha. They are in a class by themselves; we are offering one each of the

seven varieties (single price, \$5.50), in strong, two-year, field-grown plants, for \$4.75.

Roses are delivered anywhere in Colorado at prices quoted, when cash accompanies the order.

SUTHERLAND MADE-IN-COLORADO-VINES

Nothing will so soon give a house an appearance of age and permanence, and afford that little touch of homelike attractiveness and seclusion as a few well-placed vines. All the varieties we offer are hardy in this climate, and may be planted with every assurance of success. Our descriptions are not in any way overdrawn. With the exception of the English Ivy, the large flowered Clematis, all should be cut back very severely when planted, and the Boston and Engleman Ampelopsis should be cut to the ground, and just such new shoots as you desire allowed to grow. In our description of VINES where two names are used, the first is the COMMON name, the second the BOTANICAL name, viz. Engleman Ivy (common name) Ampelopsis Englemanni (botanical name).

AKEBIA QUINATA. A very graceful climber, with small, dark green foliage, not unlike a clover leaf; has numerous bunches of violet-brown, cinnamon-scented flowers. A good porch vine where a dense growth is not desired. Each, 75c.

ENGLEMAN IVY. (Ampelopsis Englemanni) The best clinging vine for Colorado, absolutely hardy, clings to stone, brick or rough wood walls without support, and turns most gorgeously in autumn.

Strong plants each, 35c; Dozen, \$3.50; Larger, 50c; Dozen, \$5.00; Extra size, 75c; Dozen, \$8.00.

BOSTON IVY. (Ampelopsis Veitchii) The popular clinging vine used in the east, has finer foliage than the Engleman Ivy, and clings closer, the leaves lying almost flat against a

Engleman Ivy on Palmer Hall, Colorado Springs

wall. Although not hardly in all sections of Colorado it does well in Denver, Boulder, and most of the towns outside of the mountains when given an east or north exposure; on the south or west it will winter-kill. Good three year plants, extra strong, and the only kind worth planting here, each, 75c; Dozen, \$8.00.

BITTERSWEET. (*Celastris Scandens*). A vine but little known in Colorado, but one of the best. It is a vine with long branches, and is very effective for covering walls, fences, trellises, rocks, or for climbing trees. The foliage is clean and free from insect pests, and the bright berry-like fruits remain on the vine most of the winter, making it a most attractive sight. Extra strong plants, 75c.

EVERGREEN BITTERSWEET. (*Evonymus Radicans Vegetus*). An evergreen hardy climber that will cling to rough walls without support. It has beautiful, glossy green foliage, held in good condition all winter, and when well established has bright orange-red berries that are held on the plant all winter. A splendid vine for planting against low foundation walls, or at the base of a sundial or bird bath.

Strong, field-grown plants, Each, 50c; Larger Plants at 75c and \$1.00.

JAPANESE BITTERSWEET. (*Celastris Orbiculatus*). A tall and vigorous climber. Berries or capsules, orange-yellow, persisting throughout the winter. Splendid for decorating. Extra strong plants. Each, 85c; Dozen, \$8.50.

SUTHERLAND'S CLEMATIS

All the Clematis we offer are hardy, and are amongst the most satisfactory vines for the garden. They are particularly adapted for covering trellis, fences, etc., but should be given a wire, cord or other support around which they can twine themselves. Do not overlook the Clematis Coccinea, although an old plant it is little known, but a beauty.

COCCINEA. The growth is somewhat slender, after the manner of the Jackmini Clematis; has most attractive coral-red, bell-shaped flowers, and is in bloom from June until frost. Most attractive. Each, 65c; Dozen, \$6.50.

PURPLE CLEMATIS. (*C. Jackmanii*). For several years we have hesitated offering the Large Flowered Clematis, beautiful as they are, because they have been so difficult to grow, being subject to a disease that carried them off over night. We are now growing them in pots, and have found that by this method there is no loss in transplanting, and they appear to be immune to disease. We believe any one can succeed with our pot-grown Clematis. Each, \$1.00; Dozen, \$10.00.

MADAM EDWARD ANDRE. Similar in habit and size of flower to Jackmani, but a pleasing shade of red. Potted plants, each, \$1.00.

MADAM B. VILLARD. Similar to above, but with beautiful deep rose-pink flowers. Potted plants \$1.00.

RAMONA. Immense flowers of a delightful shade on lavender blue. Potted plants, \$1.00.

All of above Clematis are shipped in paper pots, with the earth undisturbed, and there is practically no chance of your failing with them. On account of weight they go by express at purchaser's expense.

JAPANESE CLEMATIS. (*C. Paniculata*). The hardest form of the Clematis, makes a vigorous growth of good bright green foliage, and in September is covered with a mass of sweetly-scented, white star-like blossoms. Strong plants, 35c; large, extra strong plants, 50c. We recommend planting the larger size, as the smaller plants take some time to become established.

DUTCHMAN'S PIPE. (*Aristolochia Siphon*). A vigorous growing vine with very large bright green leaves which retain their color from early spring to late fall. A fine vine where a dense screen is desirable. Each, \$1.25; Dozen, \$2.50.

ENGLISH IVY. (*Hedera Helix*). Unfortunately this beautiful clinging vine is little known in our Colorado gardens, and yet it can be grown quite successfully if properly placed. It should be grown against a wall, on the north side, and should be protected from the west winds. Give a little covering of leaves or litter (lightly) the

A Grape Covered Trellis

first winter or two. You will find a plant here and there in most towns of the state. Good strong plants, each, \$1.00.

KUDZU VINE. The most rapid growing vine in cultivation. Its foliage is large, and it bears small racemes of rosy-purple, pea-shaped blossoms towards the end of August. Good strong, field-grown plants, Each, 75c.

GRAPES

Grapes are not only amongst the most ornamental of vines, but in addition furnish quantities of luscious fruit. The Wild Grape is most ornamental in foliage, with the Delaware a close second, though all varieties have attractive foliage, and a delightful perfume while in bloom.

Our grapes are extra strong, 2 year stock, that will give quick results.

AGAWAM. Berries large, sweet, aromatic. A delicious grape.

Each, 35c; Dozen, \$3.50.

CONCORD. The well-known black grape. 25c.

DELAWARE. Small red fruit, very sweet. 50c.

NIAGARA. Large white fruit of fine flavor. 35c.

WORDON. Similar to the Concord, but a better variety for Colorado. 35c.

WILD GRAPE. The best for trellises and pergolas, etc. 50c.

35c varieties, \$3.50 dozen; 25c varieties, \$2.50 dozen; 50c varieties, \$5.00 dozen.

SPECIAL OFFER

Five good, strong one-year plants of Concord, or Wordon for \$1.00.

HONEYSUCKLE—*Lonicera*

The Honeysuckles are among the most satisfactory of our twining vines, and are adapted to all purposes, and, with the exception of Hall's, will do well on any exposure, as it sometimes kills on the west or south, though, as a rule, it is perfectly hardy in any location. We have them out on a fence where they have the full sweep of the west winds, and have never had one winter-kill on us. All of the Honeysuckles are good in foliage, all have most attractive flowers, some varieties are sweetly-scented, and all attract the humming-birds.

HALL'S FRAGRANT. Pure white flowers, delightfully fragrant, turning to yellow, in bloom all summer, foliage dark, glossy green, and usually evergreen. Each, 50c and 75c.

HECKROTHI. An everblooming Trumpet Honeysuckle, one of the finest; has deliciously fragrant flowers of a dark, rich yellow, shaded chocolate, in bloom all summer.

Extra strong plants, 75c.

HENDERSONI. A true everblooming Honeysuckle, as each new twig bears a large cluster of yellow trumpet flowers, which change the second day to orange red, the clusters are larger and longer than the Red Coral, more brilliant in color, and are borne on longer stalk, making them valuable for cutting. Extra strong, three-year plants, \$1.00.

CHINESE EVERGREEN. Bright showy foliage of a purplish-green, flowers white, pink and yellow, fragrant, producing freely all summer. One of the best. Extra strong plants, 75c.

SCARLET TRUMPET. The old favorite Red Coral Honeysuckle, has large clusters of brilliant coral-red flowers at frequent intervals throughout the summer, followed by bright red berries retained all winter. Both flowers and berries make attractive decoration. Extra strong plants, 75c.

MATRIMONY VINE. (*Lycium Barbarum*). "A neat, half-climbing plant, bearing small light pink flowers in summer, followed by berries which turn to a beautiful scarlet in the fall, when it is very ornamental." I read this description, would not describe it that way myself, I think it coarse, and it "runs wild"; it is, however, a useful plant for covering banks and other rough places. Each 50c; Dozen, \$5.00.

THIS IS THE WAY OUR PLANTS GROW

Eaton, Colorado,

"I have gone over the shrubs and trees you planted for me last spring, and do not find over a dozen dead out of the close to thirteen hundred planted, which is a real record.

"For the work done and the quality of goods delivered your charges are reasonable and satisfactory.

BRUCE G. EATON."

SILVER LACE VINE

It is impossible to say to much in praise of the Silver Lace Vine; it is without an equal. It is hardy, a rapid grower, has clean attractive foliage, and several times during the season is a billowy mass of creamy, lace-like flowers. There are two vines on the arch shown in our illustration, they were planted in May, 1922, and the picture was taken the following September. We believe you will feel no further comment is necessary. The arch is in Mr. Joe Shoemaker's garden at 594 Humboldt street, Denver. Ask Mr. Shoemaker what he thinks of it. We have not been offering this in our catalogue for several years, as it is hard to propagate, and our stock was small. It can be grown from seed, and such plants are being offered, but, as a rule, they

Beautiful Silver Lace Vine. The Finest Vine Grown

It is not a Home Unless it is Planted

A COZY LITTLE HOME

Shrubs and Trees make the setting that transforms this house into a "home." Your's may be just as homelike. Send for our Booklet, **SOME BEAUTIFUL COLORADO GARDENS.** It will tell you how; and it is free for the asking.

do not bloom. Ours are made from cuttings, and we now have sufficient stock to offer it generally. If you want **ONE** vine, this is the **ONE.** Strong field grown plants, \$1.00; extra large size, \$1.25. You will say it was the best dollar you ever invested.

TRUMPET VINE. (*Bignonia Radicans*). A very showy vine with large trumpet-shaped flowers of dark red, with an orange throat. Should not be planted against a house as it will twist all wood-work out of shape. Each, extra strong plants, gorgeous, 75c; Dozen, \$8.00. We have a few of the usual size at 50c. See Illustration.

WISTERIA

WISTERIA. For Pergolas, and for draping below the cornice of a house, the Wisteria is unexcelled. It has very effective foliage, and makes a tremendous growth, the flowers are pea-shaped and of a lilac-purple color. Strong plants. Each, 75c. Extra sized plants, \$1.00.

"A WAY TO MAKE WISTERIA BLOOM"

If your Wisteria does not bloom as freely as you think it should read the article on page 200, November number of the Garden Magazine and Homebuilder, 1924. It's too long to quote. Incidentally, this magazine should be in the hands of every flower lover. Send us \$3.00 and we will forward your subscription.

SUTHERLAND "MADE-IN-COLORADO" SHRUBS

HARDY SHRUBS

Our stock is made up of only such varieties as may be depended upon to give the best results under our climatic conditions. Only such varieties are offered as have proven satisfactory after a test extending over a number of years. Our plants are strong and well rooted and will please you. The many Colorado Gardens and Parks planted with our Shrubs will assure you of the value of Colorado-grown stock. See page 33. We do not give the size of Shrubs in feet as such a description means nothing. A stocky Shrub two feet high is worth three single-stemmed Shrubs that frequently are described as "3 to 4 feet."

Your money back if you are not satisfied.

The botanical name is given first, followed by the common name.

PRUNE YOUR SHRUBS

Most shrubs should be cut back after planting, the amount to be cut back varying with the shrubs. Following the name of each shrub will be found a figure in brackets. (1) will indicate cut back one-fourth; (2) cut back one-third; (3) cut back half, or more. Indian Currant and Japanese Barberry will do best when cut to within six inches of the ground.

A Spray of *Philadelphus Coronarius*. Garland Flower
Syringa

ACER—Bush Maple (2)

ACER CAMPESTRE. (Hedge Maple.) A handsome tree-like Shrub with small prettily-divided leaves that turn to a golden-yellow in fall. Each \$1.00 to \$2.00.

ACER GINNALA. (Amur Maple.) This is a beautiful Shrub with finely-divided foliage that turns the most vivid shades of red in autumn. It makes the most gorgeous fall colors of any Shrub grown in Colorado. These two maples are well adapted to growing in corners where a large shrub is needed, and when grown together make a splendid fall effect, are attractive at all times. If you wish the most brilliant autumn colors use some Amur Maple.

Each, 75c to \$2.00. The 75c size will run about three feet; the \$2.00, six feet and over.

ALTHEA—See Hibiscus

AMELANCHIER—Shad Bush; Juneberry (1)

CANADENSIS. A very handsome large shrub with dark green foliage, turning to yellow in autumn, has great quantities of white flowers early in spring, followed by edible fruit. Each, \$1.00; Dozen, \$10.00.

BERBERIS—Barberry

JAPANESE BARBERRY. (3.) This is the handsomest dwarf shrub grown, has very dainty foliage that assumes splendid fall colors and bright red berries that hold on the bush until spring. Japanese Barberry does not carry wheat rust.

The Japanese Barberries are scarce this year, but we have a limited quantity of good stocky plants.

Each, 40c; Dozen, \$4.00; Hundred, \$30.00.
Each, 50c; Dozen, \$5.00; Hundred, \$40.00.
Heavy Clumps, each 75c; Dozen, \$7.50.

BOX BARBERRY. (2.) A very dwarf form of Japanese Barberry. A dainty little plant with minute foliage, and all the attractiveness of the Japanese Barberry. May be used for low clipped hedges, or for bordering formal flower beds like those used in old Colonial gardens. A little gem for any purpose.

The Box Barberry is suited to any purpose for which the Japanese Barberry is used, simply being a dwarfier form, with minute foliage, which turns equally brilliant in autumn. It makes a splendid finish for shrub borders, and is particularly adapted for use in base plantings in front of porches, and along the walls

of dwellings, giving the finish that most shrubs require. Extra strong, three-year plants.
Each, 50c; Dozen, \$5.00; Hundred, \$3.00.

BUDDLEYII—Summer Lilac (3)

A most attractive Shrub with flowers of a pleasing shade of violet-mauve in dense spikes, borne in profusion from July to frost. Should be cut to the ground and allowed to come from the root each year. The *Buddleyii* is most profuse in bloom, and the flowers are excellent for cutting, may be used in a flower bed as well as with shrubs. Each, 50c; Dozen, \$5.00.

CARAGANA ARBORESCENS

Siberian Pea (1)

A tall, tree-like Shrub with bright yellow pea-shaped flowers. Very handsome. Each, 50c; Dozen, \$5.00. Larger size, 65c; Dozen, \$7.00.

CORNUS—Dogwood (3)

Rather large Shrubs with attractive foliage that turns beautifully in autumn, flat heads of white flowers followed by blue or white berries. The stems of most make an attractive effect in the winter as they vary in color from purple to brilliant blood-red. A few of the older stems should be cut off to the ground each spring to induce new growth, the new stems always being the brightest in color. A planting of the various sorts will make a much-enjoyed corner in your shrubbery.

ALTERNIFOLIA. Pagoda Dogwood. White flowers, followed by blue berries.

PANICULATA. Grey Dogwood. White flowers, followed by white berries, very fine foliage.

SERICA. A reddish-stemmed sort with white flowers and blue berries.

SIBERICA. Coral Dogwood. This has the brightest bark of any Shrub, being a deep, bright blood-red during the winter and spring months.

STOLONIFERA LUTEA. Golden twigg'd Dogwood, very handsome, splendid contrast when planted with Siberica.

Large plants, 60c; Dozen, \$7.00; Extra Large Plants, 75c; Dozen, \$8.00.

CYDONIA JAPONICA—Japanese Quince (1)

An attractive shrub with large crimson-scarlet flowers in spring, followed by large quince-like fruits. Each, 60c; Dozen, \$7.00; Extra Large, 75c; Dozen, \$8.00.

DESMODIUM

PENDULIFLORUM. A striking and beautiful shrub, about three feet in height, has long slender branches that arch in a most graceful manner. In August and September it is almost smothered in small, rosy-purple, pea-like flowers. It is particularly adapted to banks and terraces, where its graceful, drooping branches show up to good advantage. Should be cut to the ground in the fall, as it makes new growth each season.

Each, 75c; Dozen, \$8.00.

DEUTZIA

PRIDE OF ROCHESTER. A tall-growing shrub, something like a Bridal Wreath in general effect, but blooms later, and is covered with double white rose-like flowers. This has not usually been considered hardy in Colorado, but we find that after the first year or two it is successful wherever it can have a little protection from the west winds. A most beautiful shrub.

Each, 75c; Dozen, \$8.00.

EUONYMUS—Strawberry Bush, Burning Bush

These Shrubs are particularly adapted for use as lawn specimens. They are tree-like in form, and have very attractive foliage that turns such brilliant colors in the fall as to give them the name of Burning Bush. They also have quantities of red or yellow strawberry-shaped fruits that remain in good shape on the bushes most of the winter, and makes the leafless plant almost as brilliant as when in its full glory of fall color.

ALATUS. Winged Euonymus Bush. A handsome shrub six to eight feet tall, with most picturesque corky-winged branches, and foliage

that turns to gorgeous shades in autumn. Makes a splendid specimen shrub.

Extra strong plants, Each, \$1.00; Dozen, \$10.00.

ATROPURPUREA. Wahoo. A large shrub, 8 to 10 feet, attractive foliage turn yellow in autumn, fruit bright red retained until mid-winter.

Each, \$1.00; Dozen, \$9.00.

BUNGEANUS. Winterberry Euonymus. A large shrub growing eight to ten feet in height, native of China, leaves two to four inches long, fruit deeply lobed, with orange arils. Very showy.

Large plants, Each, \$1.00; Dozen, \$10.00.

EUROPAEUS. European Burningbush. One of the best varieties, splendid autumn foliage, and bright yellow and orange fruits.

Each, 75c; Dozen, \$8.00; Smaller size, Each, 60c; Dozen, \$6.50.

Large tree-shaped specimens, 6 to 8 feet, \$2.50.

FORSYTHIA—Golden Bell (2)

VRIDISSIMA. A tall Shrub, which in spring is covered with bright yellow flowers.

SUSPENS. Has long, arching branches, almost like a vine, splendid for growing on banks or above walls.

Each, 60c; Dozen, \$6.50.

HYDRANGEA

PANICULATA GRANDIFLORA. One of the most popular shrubs of the east, and does well in Colorado if protected from west winds; has large panicles of white flowers that later assume shades of rose, the showiest shrub in cultivation. Each, \$1.00; Dozen, \$10.00.

HYDRANGEA. Arborescens Sterilis. Hills of Snow. A handsome variety, hardier in Colorado than *Paniculata*, is loaded with white flowers the greater part of the summer.

Each, \$1.00; Dozen, \$10.00.

HIBISCUS SYRIACUS—Shrub Althea, Rose of Sharon

A large growing shrub which makes an attractive ornament for the lawn, or to use back of smaller shrubs. In August it is covered with large flowers shaped like Hollyhocks, both single, and double, in a great assortment of attractive colors.

Double Rose; Double White; Double Red; Double Pink; Double Purple; Single White.

Each, 75c; Dozen, \$8.00.

HYPERICUM—St. John's Wort (3)

The *Hypericum* are almost unknown in Colorado, although at home in our gardens. The varieties offered below are the best of the family; all have clean, attractive foliage and very large golden-yellow flowers.

DENSIFLORIUM. A handsome shrub, about three to five feet in height; handsome, narrow, dark green foliage, and numerous bright yellow flowers in compound clusters.

Each, 75c; Dozen, \$8.00.

PATULUM HENRYII. One of the finest sorts, grows only to a height of about two feet, and has large clear yellow flowers, about two inches in diameter in July and August. Strong plants. Each, 60c; Dozen, \$6.00.

LIGUSTRUM—Privet (3)

The Privet is usually thought of as a hedge plant, but only a few varieties are suitable for that purpose, the others being grown as shrubs. Even the European Privet, the one mostly used in Colorado as a hedge plant makes a handsome tall Shrub when allowed to grow naturally, and has quantities of dainty, sweet-scented white flowers. The Regal Privet is one of the handsomest Shrubs grown.

IBOTA PRIVET. A tall-growing sort. Each, 60c; Dozen, \$6.00.

REGALANUM. (Regal Privet). A broad, arching Shrub with most attractive foliage that assumes bright fall colors, fragrant white flowers, and in winter is literally black with its masses of bluish-black berries which are retained until eaten by the blue-birds upon their return in spring. Each, 65c; Dozen, \$6.50.

Privet for Hedges, see page 27.

Stag-Horn Sumac—*Rhus Typhina*. Fine for a Corner

LONICERA—Bush Honeysuckle (1)

Large-growing shrubs with masses of pink or white flowers in early spring, followed by bright red or yellow berries.

MORROW. (Morrow Honeysuckle). Large spreading shrub with white flowers and amber-colored berries.

PINK TARTARIAN HONEYSUCKLE. Masses of bright pink flowers, yellow berries.

WHITE TARTARIAN HONEYSUCKLE. Similar to above, but has white flowers.

RUTRECHTIANA. Manchurian Honeysuckle. A large shrub with white flowers turning to yellow, great quantities of red or yellow berries. Very showy. Each, 75c; Dozen, \$8.00.

Price of Honeysuckle, except where noted, each, 60c.

Dozen, \$6.50. We have a few extra large plants of Pink Tartarian at \$1.00.

PHILADELPHUS—Mock Orange

There were no greater favorites in the old-fashioned gardens than the fragrant Mock Oranges; they rivalled the Lilac in popularity. We offer a number of varieties, differing in foliage, in height in flower, and in time of bloom. Plant a clump of these beautiful shrubs and you will be delighted with them. The flowers are splendid for cutting, and most of them are delightfully fragrant.

AVALANCHE. Large fragrant flowers on slender, gracefully arching branches. 75c.

CORONARIUS. The old-fashioned, sweet-scented Mock Orange, forms a large bush, and attains a height of ten feet. Large white, delightfully fragrant flowers. Good stock, 65c; large strong bushes, 75c. See Illustration.

DAME BLANCHE. Small foliage, upright branches, covered with semi-double, fringed, creamy-white flowers; very fragrant. \$1.00.

MONT BLANC. Tall grower with slender, upright branches covered with a multitude of medium-sized pure white fragrant flowers. 75c.

LEMOINEI. A very showy and floriferous variety of moderate growth, only attaining a height of 4 to 5 feet; flowers white, in short racemes, very fragrant, and literally covering the branches.

VIRGINAL. This is the most beautiful of the Mock Oranges, is a novelty just introduced

within the last few years. It is also the finest new shrub introduced in many years. The flowers are large, pure white, and double, and very sweetly scented. No finer flowering shrub can be had. I paid \$3.50 for one plant of this four years ago, and am now offering them at \$1.50. There is nothing in the shrub line more beautiful in flowers.

If I could only have one flowering shrub I believe my choice would be *Philadelphus Virginal*.

\$1.50; Dozen, \$15.00.

Price of *Philadelphus*, except where noted, Each, 75c; Dozen, \$8.00.

PHYSOCARPUS—Nine Bark (3)

OPULIFOLIUS. Common Nine Bark. Formerly classed as *Spiraea Opulifolia*. A rather large shrub with white flowers resembling cherry blossoms, in midsummer, followed by bright red seed pods. An elder planted back of this makes a good combination.

Each, 50c; Dozen, \$5.00; a few extra sized plants at 75c; Dozen, \$7.50.

GOLDLEAF NINE BARK. A striking variety with bright yellow leaves, changing in summer to golden bronzy yellow. Personally I do not care for "Golden" shrubs, but if you like them this is a good one. Each 65c; Dozen, \$6.50.

POTENTILLA—Cinquefoil

FRUTICOSA. Shrubby Cinquefoil. A semi-dwarf shrub with small foliage, and numerous bright yellow flowers produced freely all summer. Each, 75c; Dozen, \$7.50.

PRUNUS—Flowering Cherries, Plums, Almonds

This group contains some of the most showy of the spring flowering shrubs; the well-known Flowering Almond being included. The Flowering Almond, Double flowering Plum and the Purple Leaf Plum are all grafted, and should be planted below the graft. Watch for suckers coming from the base of the plant and cut off close to the trunk immediately, for if allowed to grow it will kill out the real plant. These have mostly been grafted on Peach, which is not hardy in Colorado; our stock is on wild plum, and is quite hardy.

BESSEYI. Bessey Cherry. A beautiful shrub with handsome narrow leaves, which assume wonderful colors in the autumn; in spring it is covered with dainty white cherry-like blossoms, followed by fruit about the size of the Early Richmond Cherry, and which make fine jams and jellies.

Each, 65c; Dozen, \$1.00.

GLANDULOSA. Flowering Almond. This well-known shrub has beautiful rose-like double flowers in pink or white, which appear in spring before the leaves. White or Pink, each, \$1.25, larger plants, \$1.50; Dozen, \$12.50 and \$15.00.

PADUS. European Bird Cherry. A large tree-like shrub, with foliage similar to the Choke-cherry, but larger and broader, and which turns to gorgeous shades of orange in the fall, and in spring has masses of creamy-white fragrant flowers, followed by berries similar to the Choke Cherry.

75c and \$1.00; Dozen, \$8.00, and \$10.00.

PISSARDI. Purple Leaf Plum. See Tree Department.

TRILOBA. Flowering Plum. More tree-like in habit than the Flowering Almond, has good foliage, and in early spring is covered with small double rose-like flowers of a brilliant deep pink. Very showy and attractive. Each \$1.25; Dozen, \$12.50. We have a few extra sized plants nearly six feet, at \$2.50.

VIRGINIANA. Choke Cherry. A large growing shrub with splendid fall foliage, one of the finest shrubs for fall effects, shades of scarlet and red; in spring it has great quantities of creamy-white fragrant flowers, followed by the black cherry-like fruits that make delicious jams and jellies. A group made up of *Prunus Virginiana* and *Padus* make a gorgeous fall effect. Both varieties are splendid at all seasons; and the birds will relish the fruits if they beat you to them.

Each, 75c; Dozen, \$8.00. Small size, 50c; Dozen, \$5.00.

A Three-year old Shrub of Fern Leaf Elder

RHODOTYPUS—Jetbead

KERRIODES. Not usually considered hardy in Colorado; but we have it doing well where protected from the west winds. Some shrubs we planted in different towns over twelve years ago are still doing well. A very handsome shrub about 4 to 5 feet high, leaves bright green, and single white flowers about an inch across, followed by berries that are retained all winter.

Each, \$1.00; Dozen, \$10.00.

RHAMNUS—Buckthorn (4)

These are tall-growing shrubs, making good fall effects, and have brilliant red berries, turning black as they ripen.

CATHARTICA. Common Buckthorn.

Each, 50c and 75c; Dozen, \$5.00 and \$7.50.

FRANGULA. Glossy Buckthorn, has large brilliant green leaves, good fall color.

Each, 50c and 75c; Dozen, \$5.00 and \$7.50.

RHUS—Sumac (2)

These are most attractive shrubs with large, fern-like leaves that turn the most wonderful colors in fall. Are best used back of smaller shrubs. All the Sumacs may be cut back to the ground, when they will soon send up new stalks.

COPALLINA. (Shining Sumac). A medium-growing shrub, crimson fall effects; the most brilliant of all.

SMOOTH SUMAC. (Glabra). Medium to tall, brilliant red fall tones.

FERN LEAF SUMAC. (Glabra *Laciniata*). This is the most beautiful of all the Sumacs, is somewhat dwarf in habit, has very finely divided foliage, even finer than the *R. typhina laciniata*, and colors to tones of deep red and purple in autumn, makes a fine grouping with *R. typhina laciniata*, and *R. typhina*. Each, \$1.00; Dozen, \$10.00.

STAGHORN SUMAC. (Typhina). A tall, tree-like shrub with glowing red and bronze fall colors.

CUT LEAF STAGHORN SUMAC. (Typhina *Laciniata*). Leaves like a beautiful big fern, brilliant orange and yellow fall colors. One of the best.

Price of Sumacs, except where noted, Each, 50c and 65c; Dozen, \$5.00 and \$6.50.

RIBES—Flowering Currants (2)

YELLOW FLOWERING CURRANT. (Aureum). A spreading shrub with masses of yellow, fragrant flowers in spring, good fall colors. Fruits

make the finest kind of jam and pie. Each, 50c and 65c; Dozen, \$5.00 and \$6.50.

WILD BLACK CURRANT. (Floridum). The berries of this shrub make the finest pies and jams, the foliage turns beautifully in autumn. We have only a few to offer. Each, 75c.

ROBINIA HISPIDA—Rose Acacia

A hardy shrub somewhat like the Pink-Flow-ering Locust in appearance. The flowers are very large, bright rose-color, in loose nodding racemes. A very striking shrub.

Each, \$1.00; Dozen, \$10.00.

ROSA—Rose Species (2)

The Roses offered under this head are varieties that are grown for their effect with shrubs and should not be confused with Everblooming and other double Roses. They are all, however, very attractive shrubs, both in foliage and flowers, all turning brilliantly in autumn and having bright red fruits that remain on the bushes until spring.

BLANDA. Meadow Rose. A most attractive sort in habit and flower, with the additional advantage of bright red stems that are as showy as the Red Stemmed Dogwood; has single pink flowers, followed by bright red berries that are retained on the bush all winter; the true variety is thornless.

Seedlings, Each, 50c; Dozen, \$5.00; True Thornless variety, raised from cuttings, Each 75c; Dozen, \$8.00.

LUCIDA. A low-growing sort with good foliage and pink blossoms. Each, 50c; Dozen, \$5.00.

LUCIDA ALBA. One of the best shrubs for fall and winter color, as well as a handsome shrub during the summer, the attractive foliage turns to golden-yellow in the fall, and the stems are also yellow; the flowers are large, single, and pure white; and are followed by bright fruits that are retained all winter. A splendid shrub.

Each, 65c; Dozen, \$6.50.

HARRISON'S YELLOW. A rather large growing shrub with a multitude of golden-yellow semi-double flowers. Very showy. Large field grown plants, each, 90c; Dozen, \$9.00.

PERSIAN YELLOW. Similar to above with bright yellow, nearly double flowers of exquisite form. An old favorite. Each, \$1.00; Dozen, \$10.00.

RUBRIFOLIA. Red-Leaved Rose. A handsome variety with slender purplish branches, and blue-green leaves tinged with red. Flowers pink, an inch and a half in diameter, fruit scarlet. A remarkable plant, and the best shrub with colored foliage.

Each, \$1.00; Dozen, \$10.00.

RUBIGINOSA. English Sweet Brier. A tall variety with very thorny stems, and foliage that exudes a delightful fragrance after a rain, or whenever the plant has been sprinkled. Makes an impenetrable hedge—keeps delivery boys from cutting across your lawn.

Each, 90c; Dozen, \$9.00.

LORD PENZANCE HYBRID SWEET BRIER

Wonderful hybrids of the Sweet Brier, with flowers of exquisite tones of color, and the same delightful fragrance of the Sweet Brier, stronger growers.

FLORA McIVOR. Pure white, flushed rose. Each, \$1.50.

MEG MERRILIES. Bright rosy-crimson. Beautiful. Each, \$1.50.

ANNE OF GEIERSTEIN. A striking dark velvety crimson. Each, \$1.50.

SETIGERA. Prairie Rose. A splendid variety for growing on terraces, banks, and amongst hardy shrubs. The foliage is large and attractive, and in fall assumes wonderful shades of orange and crimson; and while in bloom with its long arching branches covered with large single pink blossoms it makes a delightful effect. Each, 75c; Dozen, \$7.50.

SPINOSISSIMA. Scotch Rose. For some years we have been building up a stock of this unusual rose. It makes a shrub about four feet in height, and about as broad, has numerous single or semi-double flowers of light pink or white, which are followed by black fruit. A

beautiful plant for growing with other shrubs. Each, \$1.00; Dozen, \$10.00.

RUGOSA. Wrinkled Japanese Rose. One of the most showy of the Hardy Roses. See page 17 for varieties and descriptions.

TRIER. One of the finest Roses for using with shrubs, has fine, clean foliage and large sprays of creamy white, semi-double flowers all summer. The finest hardy ever-blooming Rose. Each, 75c; Dozen, \$8.00.

Garland Spiraea (Spiraea Arguta)

RUBUS—Bramble

ODORATUS. A vigorous-growing Shrub with leaves resembling a Maple. Flowers rose-purple, large and showy, blossoming for several weeks. A very attractive plant.

Each, 75c; Dozen, \$8.00.

SAMBUCUS—Elder (3)

The Elders are well-known, all have large heads of creamy flowers, followed by berries that are much appreciated by birds, and are frequently used for pies and jellies. A splendid background shrub.

ACUTILOBA. Cut Leaf American Elder. Fern Leaf Elder. A form with delicately cut foliage, making a billowy mass of soft green foliage, surmounted by large heads of creamy-white fragrant flowers. Do not confuse this with the common "Cut Leaf Elder", the Fern Leaf is in a class by itself.

Each, 65c; Dozen, \$6.50. A few large plants at 75c.

CANADENSIS. American Elder. Makes a large shrub, should be used in the background; has large heads of creamy-white, fragrant flowers.

Each, 50c; Dozen, \$5.00. Larger plants, 65c; Dozen, \$6.50.

GOLDEN ELDER. "The Golden foliage of this makes it much in demand; very showy when planted with other shrubs." This is the usual description; personally I think it in bad taste; but if you like "yellow" in shrubs here it is. Each, 65c; Dozen, \$6.50.

SPIRAEA

The Spiraeas form a large group of our best garden shrubs, with a great variety of flower and foliage. The well-known Bridal Wreath belongs to this group. The spring-flowering group are well adapted for base plantings around houses, etc., as are also the Sorbarias, which formerly were classed with Spiraeas. If the early Spiraeas are closely pruned immediately after blooming the foliage will become more feathery and the quantity of bloom for the following year greatly increased.

EARLY FLOWERING SPIRAEAS

AITKINSONI. See Sorbaria Aitkinsoni.

ARGUTA. Garland Spiraea. The best of the early varieties, as it rarely, if ever gets caught with our late frosts, is a mass of white flowers, coming before the foliage; the foliage is fine and lacy, and assumes beautiful autumn color.

We are offering the true variety, which never fails to bloom with us, while some of the varieties put out as *Arguta* are shy bloomers. See illustration.

Each, 75c; Dozen, \$8.00.

PRUNIFOLIA. This is the variety that is known in the east as Bridal-wreath. It flowers but sparingly in Colorado, and as the foliage is not as attractive as the *Van Houttei*, *Arguta* and *Thumbergi*, growing tall and somewhat spindly, we do not recommend it.

Each, 75c; Dozen, \$8.00.

THUNBERGI. Snow Garland. A beautiful dwarf sort with flowers similar to *Vanhouti*, coming early in the spring. If it had no flowers at all I would consider it one of our best shrubs, as it has very dainty foliage, turn beautifully in the autumn, and holds its foliage later than any shrub I grow. Last fall it was in full leaf well into December; when every other shrub had long been bare.

Each, 65c; Dozen, \$7.00.

VANHOUTTEI. *Vanhoutte Spiraea*. This is the variety known as Bridal-wreath in Colorado, and is one of our finest shrubs. Good stock at 40c; large plants, 50c; extra size, 75c; Dozen, \$4.00, \$5.00 and \$8.00.

SUMMER-FLOWERING SPIRAEAS

There are so few summer-blooming shrubs in our gardens that most gardeners will welcome our large list of summer-blooming *Spiraeas*; some of them like *Margaritae*, *Callosa alba*, *Anthony Waterer* continuing well along into September.

RILLARDI. A hybrid variety, 4 to 5 feet high, with bright pink flowers in long dense panicles. Very showy and attractive, and fine for cutting.

BUMALDA. A remarkably free flowering shrub, 2 feet in height, flowers deep pink in large, flat-topped clusters, throughout the summer and fall.

BUMALDA, ANTHONY WATERER. A dwarf variety with bright rosy-crimson, (I call it magenta) flowers all summer. Though I don't care for magenta flowers this is quite effective when planted in front of deep green foliage, and kept away from other colors.

BUMALDA, PROBELI. A new variety, about three feet in height, has attractive foliage, and bright pink flowers in broad flat-topped clusters, borne freely all summer. In addition to its attractive flowers this shrub makes an unusual show in the spring; when the foliage first appears it is almost red, and from a distance the shrubs look as if it were covered with bright red flowers. Very showy.

CALLOSA ALBA. A pretty little dwarf variety with flat heads of pure white flowers, borne continuously through the summer if the faded blossoms are picked. A fine plant for the edge of the shrub border.

CALLOSA ROSEA. A tall variety with attractive foliage, the leaves being tipped with red, has flowers of a pleasing shade of pink.

CALLOSA SUPERBA. Similar to *Callosa Rosea*, but taller in habit, has very pleasing shade of pink flowers.

Each, 75c; Dozen, \$7.50.

DOUGLASSI. Pink flowers in finger-like panicles.

MARGARITAE. One of the most attractive of the new varieties. Grows about 2 feet in height, has attractive foliage which assumes beautiful shades of reddish-bronze in autumn, and carries flat heads of flowers of a pleasing shade of pink throughout the summer. Faded flowers should be cut. One of the best. Each, 75c.

PANICULATA ROSEA. A tall variety with pyramidal panicles of light pink flowers.

TOMENTOSA. A hardy and distinct variety, native from Canada to Knasas, grows 3 to 4 feet high, and has deep pink flowers in narrow dense spikes 3 to 8 inches long.

Price of Summer-blooming *Spiraea*, except where noted, Each 65c; Dozen, \$7.00. These are good strong plants, we have a few of a smaller size in *Callosa alba*, *Douglassi* and *Paniculata rosea* at 50c; \$5.00 per dozen.

SORBARIA—False-Spiraea (3)

Until recently these were classed with the *Spiraeas*, though they are quite distinct in both in flower and foliage. All have attractive foliage resembling the *Mountain Ash*,—*Sorbus Aucuparia*—from which they take their name. The plants are tall and slender, with handsome fern-like leaves, and beautiful foamy white flowers. *Aitkinsoni* and *Lindleyana* should be used towards the back of the shrub border, and *Sorbigorlia stellapeda* about the centre.

AITKINSONI. A tall variety, 5 to 6 feet, with foliage finely-divided, like a fern, and large panicles of double, foamy-white flowers. A most beautiful shrub.

Each, \$1.00; Dozen, \$10.00.

LINDLEYANA. Similar to *Aitkinsoni*, but not so tall, and as it sometimes is winter-killed it should be cut to the ground in the spring, when it will make a very rapid growth, attaining its full height along in June. Flowers similar to the preceding, but single. Very attractive. Each 80c; Dozen, \$9.00.

SORBIFOLIO STELLAPEDA. Another new variety, and a great improvement on the *sorbifolia* (this we do not list); the foliage is attractive, much like *Aitkinsoni*, dwarfier in habit, and has immense pyramidal panicles of white flowers. One of the most attractive shrubs we know of. Scarce.

Each, \$1.00; Dozen, \$10.00.

SYRINGA—Lilac

Although our Colorado Seasons are not always favorable for the Lilac we all have a sentimental attachment to this wondrously beautiful and delightfully fragrant flower that when we do have a favorable spring we feel

Fringe-like Flowers of the Tamarix

amply repaid for the little care they have been. If Lilacs are pruned immediately after blooming they will make new growth at once, and will set a fuller crop of blossoms for the following season. Plant where they will be protected from the sun in the early spring. Another good plan to insure bloom is to dig a trench about them during the winter, fill it with water and when it has frozen solid put a heavy mulch of leaves or litter on the ground so that the frost will be retained as long as possible. This will retard the budding process and will usually insure bloom.

LILAC

JAPONICA. Japanese Tree Lilac. This makes a tall, symmetrical, tree-like shrub, with clusters of white flowers in June, long after other Lilacs are gone. Is never caught by the frost. It makes a handsome lawn ornament.

Each, \$1.25, and \$1.50; Dozen, \$12.00 and \$15.00.

JOSIKAEA. Hungarian Lilac. A late-blooming Lilac, coming in June, and a sure bloomer has dainty lavender-pink flowers. A splendid variety for the shrub border.

Each, \$1.25, and \$1.50; Dozen, \$14.00, and \$15.00.

PERSICA. Persian Lilac. Makes a much more attractive shrub than the common Lilac, and has very dainty, loose clusters of light purple flowers.

Each, 75c, and \$1.00; Dozen, \$8.00, and \$10.00.

PERSICA ALBA. White Persian Lilac. A most attractive white variety of the Persian. Each, \$1.00, and \$1.25; Dozen, \$10.00 and \$15.00.

ROTHOMAGENSIS. Chinese Lilac. This has the same good foliage as the Persian Lilac, and beautiful deep, reddish-purple flowers. A most attractive sort.

Each, \$1.00, and \$1.25; Dozen, \$10.00, and \$12.50.

VILLOSA. Late Lilac. A late blooming sort with flowers of a pale, washed-out-looking lavender. Not attractive. We have a few if you wish them.

Each, 75c.

VULGARIS. Common Lilac. The old-fashioned purple, fragrant Lilac, beloved by everyone.

Each, 50c, 75c, and \$1.00; Dozen, \$5.00, \$8.00, and \$10.00.

NEW FRENCH HYBRID LILACS

These are great improvements on the common Lilacs, in color, size of both flower and truss; the common sort usually has to attain some age before blooming; while these sorts frequently bloom when less than two feet in height. If you plant Lilacs be sure and include these beautiful hybrids.

ALPHONSE LAVALLE. An attractive shade of lavender-blue. \$1.25.

CHARLES X. A bright reddish-purple. Fine. \$1.25.

LUDWIG SPAETH. Very dark crimson-purple, one of the darkest and most beautiful single sorts. \$1.50, larger plants; \$2.00.

MARIE LEGRAND. A beautiful single white with immense flowers. \$1.25.

MME. CASIMIR PERIER. The best double white, very large flowers. \$1.25, larger plants, \$2.50.

PRES. GREVY. A beautiful blue, individual flowers very large and double; the panicle is magnificent; one of the finest Lilacs. \$1.50, large plant, \$2.50.

LILACS IN TREE FORM

We have a few Lilacs grown in tree form that make most attractive specimens for the lawn.

White Tree Lilac. \$1.50.

Ludwig Spaeth, tree form. \$2.50.

Purple Lilac, Tree form. \$1.50.

SYMPHORICARPUS—Snowberry (3)

VULGARIS. CORALBERRY. Grows two to three feet in height, has very attractive foliage that is held well into the winter, and quantities of deep wine-red berries.

Each, 40c; Dozen, \$4.50; Larger, 50c; Dozen, \$5.50.

RACEMOSA SNOWBERRY. Somewhat taller than the Indian Currant, and has clusters of

Viburnum Dentatum in its June Glory

snow-white berries that are held until late in the fall. One of the most attractive of the berried shrubs.

Each, 50c; Dozen, \$5.50; Larger, 60c; Dozen, \$6.50.

TAMARIX (2)

Large shrubs with beautiful feathery foliage, something like the Cedar in effect and dainty flowers in racemes in May and June. Splendid for cutting. See Illustration page 25.

PENTANDRA. Has deep carmine flowers, the brightest of the family. Scarce.

Each, 65c; Dozen, \$7.00; Larger, 75c; Dozen, \$8.00.

ODESSINA. A fine variety with light pink flowers.

Each, 60c and 75c; Dozen, \$6.50 and \$8.00.

VIBURNUM (1)

The Viburnums are amongst the most attractive of our shrubs; personally I prefer them to any, as they have so many good qualities. They all have good foliage that turns most attractively in autumn, large heads of white flowers followed by red, blue or black berries that are carried well into the fall, and in the American form of Viburnum Opulus, all winter. They are large-growing shrubs and should be planted back of most other sorts. The well-known Snowball belongs to this family, and in my opinion, all the other varieties are much more attractive than this favorite.

AMERICANUM. An American variety of the High Bush Cranberry, and superior to the European sort. The foliage turns to a brilliant scarlet in autumn, making a regular bush of fire, and the berries are held until late spring. Scarce. Each, \$1.50.

DENTATUM. A bushy sort with an abundance of white flowers in June, which are followed by blue-black berries. Fine fall colors. See Illustration.

LANTANA. A large shrub with pretty wrinkled leaves that turn a deep plum color in autumn, large clusters of white flowers, followed by bright red berries which turn to black as they ripen.

LENTAGO. One of the best, becomes almost a small tree, white flowers, blue-black berries held over until spring, and very brilliant orange-red fall foliage.

OPULUS. High Bush Cranberry. Similar to the Snowball, but has flat heads of flowers, followed by red berries. Good fall colors.

OPULUS STERILIS. SNOWBALL. The well-known Snowball.

Each, 75c and \$1.00.

PRUNIFOLIUM SHEEPBERRY. A large-growing shrub with flat clusters of white flowers followed by black berries, attractive fall colors.

Price of Viburnums, except where noted. Each, 75c and \$1.00; Dozen, \$8.00 and \$10.00.

WEIGELA (1)

Most attractive shrubs, four to six feet in height, with large, beautiful flowers of red, pink or white, the pink being the most attractive. Although the time of bloom is usually in May or June, they frequently have some flowers throughout the entire summer. Should be protected from west winds.

CANDIDA. Large, pure-white flowers.

EVA RATHKE. Brilliant crimson flowers, everblooming. A gorgeous shrub when in bloom. \$1.00.

PURPUREA. A variety with purple foliage, much on the order of the Purple Barberry, which we are now forbidden to grow. \$1.00.

ROSEA. A beautiful rose-pink. The best.

Price of Weigela, except where noted, Each, 75c; Dozen, \$8.00.

HEDGES

A well-kept hedge makes an attractive enclosure for the lawn in front of a residence; and also for enclosing any formal part of the garden. For this purpose our Polish Privet is the best "Trimmed Hedge" for Colorado. The California and most other Privets sold here are not hardy in Colorado. Privet should be planted one foot apart, or if a thick hedge is wanted quickly, plant two rows one foot apart, with the plants one foot apart in the rows, and "staggered." Plant several inches deeper than the plants have stood in the row, and cut back to within a few inches on the ground; then cut back again to six or eight inches early in July. The following spring cut back all but two to three inches of the newer wood, and repeat in July. This process should be continued until the desired height is obtained.

ENGLISH PRIVET. The hardiest and best privet for Colorado. Good 1 year plants, \$8.00 per hundred. Strong 2 year plants; \$12.00 per hundred. Extra strong, bushy 3 year plants, \$25.00 per hundred. Use the 2 or 3 year plants for best results.

JAPANESE BARBERRY. Makes an attractive low hedge; cut back to two or three inches when planted, afterwards allow it to grow without trimming.

\$20.00 and \$30.00 per hundred.

SNOWBERRY. Makes an attractive informal hedge, 2 to 3 feet. See description, page 26.

\$15.00 per hundred.

SPIRAEA VANHOUTTEI. Another good informal hedge, 4 to 5 feet. See page 25 for description. \$18.00 per hundred.

SWEET BRIER ROSE. also *Rosa lucida*, makes a good hedge, and an impenetrable one, as does also the Russian Olive, page 30. See page 24 for Brier Rose.

ROSA LUCIDA. Hedge plants, \$18.00 per hundred.

RUSSIAN OLIVE. Hedge plant, \$15.00 per hundred.

BOX HEDGE

It has been the ambition of almost every gardener to own a BOX HEDGE. In most parts of America this has been impossible, as the Box is not hardy except in the south, and from there northward for a short distance. We now have a plant that gives promise of taking the place of the Box of the Old Fashioned Garden.

LODENSE PRIVET. A hybrid of the Hardy European Privet, with the habit of the Box. It is as its name implies, LOW and DENSE. It can be kept to a height of six inches, or allowed to grow one or more feet in height, but it is ALWAYS DENSE. Although we have not tried it out for a long enough period to pronounce it absolutely hardy, it gives every promise of being so; and of being just the plant we have been looking for to make low, dense hedges for formal and colonial gardens. Our price is much below eastern prices, and almost as low as that of the common privet.

Good strong one year plants,—COLORADO GROWN. Dozen, \$3.50; Hundred, \$25.00.

BEFORE PLANTING YOUR SHRUBS

Be sure and read about pruning, on Page 20 before planting your shrubs.

BUY SUTHERLAND SHRUBS "MADE-IN-COLORADO"

TWENTY-TWO ACRES of Hardy Plants, Shrubs, Roses, Vines, Evergreens and Trees in our Nurseries.

YOU CAN SEE OUR SHRUBS GROWING IN THESE GARDENS

We have selected just a few, well distributed as to district, so that you may have an opportunity, if you wish, of seeing what Sutherland "Made-in-Colorado" plants are doing under YOUR own conditions. See page 33.

A Well Kept Hedge of Polish Privet

SUTHERLAND "MADE-IN-COLORADO" EVERGREENS

Many gardens are without any attraction whatever during the winter months, while they might be just as interesting as in summer. This, you may think, rather a broad statement, but when you see a garden where Evergreens have been liberally used, and where shrubs with bright-colored bark and berries have been taken advantage of, you will be willing to admit that the soft, feathery foliage of the Evergreens with their brilliant greens, blue-greens, bronzes and greys, contrasted with the bright bark and berries of the shrubs make quite as delightful a picture as the garden affords any season of the year. Most of the Junipers and the Dwarf Pines are very attractive when worked in with a shrub planting in the garden or in front of a porch.

Our Evergreens are grown here in our nursery, not collected in the mountains. Our stock is frequently transplanted, thus developing a compact root system so that when dug for shipping ALL the roots are saved, insuring the growth of the tree. Our soil is particularly adapted to the handling of Evergreen and our stock is dug with a firm ball of earth, and securely burlaped for shipping. The roots are NOT cut in digging; you can count on every tree growing.

The fall of 1921 we planted well on to two hundred Evergreens from our nursery in the garden of Mr. H. M. Blackmer, Denver, without the loss of a single plant.

PLANTING EVERGREENS

When planting evergreens do not remove burlap in which they are wrapped. Dig a hole somewhat larger than is required and fill in with loose soil to the proper depth, then firm it down so that the plant will not sink below the proper level, set the plant in place untie the burlap from around the stem, and turn it back so that the earth on the top of the ball is exposed, then fill in the earth all around and tamp firmly. See that it is watered thoroughly, not just sprinkled, soak until the earth will not take up any more moisture; it will take

some time for the water to thoroughly permeate the ball of earth around the evergreen.

JUNIPERUS—Juniper

The Junipers, Cedars, as we are accustomed to calling them, have many forms and habits, so that we can select a Juniper that will be appropriate for any position or purpose. Some are prostrate, trailing along the ground, others are more upright and are adapted for use in connection with shrubs, others again are tall and columnar in form and make trees of considerable height, but they are all beautiful, and worthy of a place in the smallest garden or the largest estate.

PROSTRATE JUNIPER. A prostrate variety of communis. This is a creeping juniper, similar to the one found in our mountains, but holding a better winter color. In our nursery they are a bright green, or a blue-green all winter. This is a splendid evergreen for planting on banks or terraces, or as a ground cover in connection with other evergreens.

12 to 15 inches, \$2.00; 15 to 18 inches, \$3.00; 18 to 24 inches, \$4.00.

PETITZER JUNIPER. One of the most striking Junipers, somewhat irregular in habit, with branches spreading nearly horizontally, as broad as tall, the feathery, bluish-green foliage giving the plant a very distinct and graceful appearance. Our stock of this is limited, but we still have a number of fine plants.

2 to 3 feet, \$6.00; 3 to 4 feet, \$8.00.

SABINA. (Savin Juniper). For planting with shrubs, and for base planting in front of porches, etc., this is without a rival. It is the most beautiful small Juniper grown. The foliage is dainty, and the form is quite picturesque. Seldom grows over 3 feet in height and spreads out fan shape.

12 to 15 inches, \$2.50; 15 to 18 inches, \$3.00; 18 to 24 inches, \$4.00; 24 to 30 inches, \$5.50; 30 to 36 inches, \$7.00.

SCOPULORUM. Colorado Juniper. This is the "Cedar" with the bright silvery foliage found in our Colorado mountains. It is tall and columnar in habit, and is particularly well adapted for use where a formal note is wanted in the garden. A pair of these with a garden seat between makes a most attractive picture.

2 to 3 feet, \$4.00; 3 to 4 feet, \$5.50; 4 to 5 feet, \$7.00; 5 to 6 feet, \$10.00; 6 to 7 feet, \$12.00; 7 to 8 feet, \$16.00.

SILVER RED CEDAR. A form of the Cedar with intense blue-green foliage, light and feathery in character.

3 to 4 feet, \$7.00; 6 to 7 feet, \$15.00. We have three large ones over 7 feet, \$25.00 each.

TAMARIX SAVIN JUNIPER. One of the most beautiful of the Junipers. The habit is almost prostrate, the foliage is a beautiful deep green, fine and feathery. We have only a few of these splendid junipers. 15 to 18 inches, \$5.00; 18 to 24 inches, \$6.00; 24 to 30 inches, \$7.50.

VIRGINIANA. Redcedar. A tall variety, form tapering and symmetrical, dark green foliage, of purplish-bronze appearance in winter makes an attractive contrast with other varieties.

2 to 3 feet, \$2.50; 3 to 4 feet, \$3.50.

WHITELEAF CEDAR. A handsome plant with bluish-green foliage, the new growth being tipped with creamy white. A rare sort. 2 to 3 feet, \$6.50.

PICEA—Spruce

These are the Spruces found in our Colorado Mountains varying in color from deep green, to bright blue-green. They are splendid subjects for use in parks, and large grounds, and even in the city yard they have a place, as they make a splendid background for a garden, and nothing is better for use as screens and hedges as they make a fine show of color in winter when all our trees and shrubs are bare. Our stock is nursery grown, frequently transplanted; and will not fail to grow.

PUNGENS. Our Colorado Green Spruce, and the best color to use when a group is wanted, or as a contrast for the Blue variety.

24 to 30 inches, \$2.00; 30 to 36 inches, \$3.00; 3 to 4 feet, \$3.50; 4 to 5 feet, \$4.00.

COLORADO BLUE SPRUCE. This the bright blue variety we see scattered through our mountains. It makes a splendid specimen for a large lawn; or when planted with a group of green

Colorado Juniper (Juniperus Scopulorum)

spruces the brilliancy of the blue is intensified. 18 to 24 inches, \$2.50; 24 to 30 inches, \$3.00; 30 to 36 inches, \$4.00; 3 to 4 feet, \$5.00; 4 to 5 feet, \$6.50.

We have some Spruces that are not symmetrical enough for specimen trees, but are well adapted to planting for backgrounds, and screens, and these are offered at one-third off the price quoted for regular stock.

PINUS—Pine

FONDEROSA SCOPULORUM. Colorado Yellow Pine. This is the best Pine for most purposes, particularly for a background. It might well be planted in many of our city gardens, where its bright green, glossy foliage will give life to the picture during the dull winter months.

2 to 3 feet, \$2.50; 3 to 4 feet, \$4.00; 4 to 5 feet, \$5.50; 5 to 6 feet, \$7.00; 6 to 8 feet, \$10.00.

MONTANA. Swiss Mountain Pine. A beautiful little dwarf tree, suitable for the smallest garden; often not more than a shrub. The foliage is a brilliant deep green, and is particularly attractive in winter.

12 to 18 inches, \$2.00; 18 to 24 inches, \$3.00; 24 to 30 inches, \$4.00; 30 to 36 inches, \$5.00.

MONTANA MUGHUS. Mugho Pine. This is a tiny dwarf form of Montana, and is suitable for foundation plantings, and for exclamation points in the garden, especially in formal design. 12 to 15 inches, \$5.00; 18 to 24 inches, \$7.00.

THUJA—Arborvitae

For the average garden, large or small, there are no Evergreens that are as delightful as the Arborvitae. They vary so much in form, in size, and in color and texture of foliage that they lend themselves to the making of beautiful garden pictures. They are particularly useful in accentuating a formal note in the garden scheme. Although the Arborvitae have not always been considered hardy in Colorado, we have used them in gardens for some years, and where not badly exposed to west winds, they have always been successful. You can see a number of these in the gardens of Denver; Mr. Henry M. Blackmer, 975 East Seventh Avenue, and Mr. Robert Grant Dill, 2655 Ash Street. Some we planted have stood in Mrs. Randolph Morris' garden (planted by the late Mrs. Guilford Wood) 7th and Washington, Denver, over ten years.

OCCIDENTALIS. (American Arborvitae). A large-growing form, with bright green foliage, holding its color well during the winter. Useful for a shady corner, or for using as a background for flowers. Strong bushy plants that have been frequently sheared. 2 to 3 feet, \$3.75.

AMERICAN GLOBE ARBORVITAE. A low dwarf compact form, with bright green foliage. In outline a symmetrical globe. A formal striking variety.

12 to 18 inches, \$4.50.

AMERICAN PYRAMIDA ARBORVITAE. A compact, narrow pyramidal shrub, branches short and densely clothed with bright green foliage. Very formal and attractive, and the most columnar of the Arborvitae. 18 to 24 inches, \$3.50; 2 to 3 feet, \$5.00.

BERKMAN'S GOLDEN ARBORVITAE. A very dwarf, compact shrub, with golden yellow foliage. The most beautiful dwarf Evergreen; the yellow is not so pronounced but what it blends with all other foliage, nor does it have an unnatural tone, as do most so-called "golden" shrubs.

12 to 15 inches, \$3.50; 18 to 24 inches, \$5.00; 24 to 30 inches, \$6.00.

THE QUESTION OF PRICES

There is no other stock in Colorado, so far as my knowledge goes, of many of the varieties of Evergreens offered by me. This is particularly true of the various sorts of Junipers; and I have been interested in comparing my prices with those of the nearest stock I know of—that of Hill of Illinois, who makes a specialty of Evergreens. Comparisons are not always in good taste, but I could not refrain from making a few, as there are some Colorado people, not found among the loyal supporters of our state, who think anything produced in Colorado must be high in price. Note the difference between our "Made-in-Colorado" stock and that

Sabin Juniper in One of Our Denver Gardens

of the Illinois stock: Express from the east often doubles the cost of the plant.

	Our Price	Illinois Price
Juniperus Pfitzeriana, 3 to 4 ft.	\$ 8.00	\$15.00
Juniperus Sabina, 18 to 24 in.	4.00	\$ 7.00
J. Virginiana glauca, 6 to 7 ft.	15.00	
Only 4 to 5 feet		\$16.50

We might continue this further, but this will be sufficient to convince you that "Made-in-Colorado" stock is not only right in quality, but right in price.

At prices quoted, our evergreens are carefully dug with a ball of earth, and firmly tied in burlap, so that they will reach you without the roots being disturbed. Express or freight charges to be paid by purchaser.

SOME REASONS FOR BUYING SUTHERLAND "MADE-IN-COLORADO" HARDY PLANTS

Because we have twenty-two acres in Hardy plants, Trees, Shrubs, Roses and Vines.

Because they are grown here and suited to our climate.

Because we have the largest assortment in the West.

Because our prices are as low as those of any good nursery.

Because we pay delivery charges anywhere in Colorado.

Because you have to pay delivery charges from most nurseries. One of the best-known nurseries in the country states in their 1925 catalogue: "Add 20 per cent to the price if you wish plants sent by parcel post." This would mean that plants offered at \$2.50 per dozen would cost you \$3.00 delivered.

Because our plants are large, field-grown stock. Most plants sent out by eastern nurseries are small plants, mostly from pots, and have a poor chance for success under ordinary planting conditions.

Because, like you, we live in Colorado and support Colorado institutions.

Your money back if you are not satisfied. You can see our Plants, Trees, Shrubs, etc., in any of these gardens or Parks. See Page 33.

SUTHERLAND TREES FOR COLORADO And The West

Have you ever seen Denver from an aeroplane? I haven't; but I'm told that it looks like a forest. We have plenty of trees in most towns in Colorado; for years, whenever anyone has built a house they have immediately planted trees, but they have been mostly Silver Maples and Elms, with Poplars for screens. Just think how beautiful our cities would be if everyone had planted at least one hard wood tree, a Sugar Maple, a Norway Maple, or an Oak; what glorious fall colors we would have. These trees all do well in Colorado;

Russian Olive—Makes a Beautiful Setting for a House

true, they are a little slow for most of us; but, if we must have some quick growing trees for immediate effect let us plant at least one for the future—we may live a few years yet. I have two Oaks in my garden, a Pin Oak and a Scarlet Oak. Just now, when they are bare, I wouldn't take a hundred dollars each for them, and they are only about five inches in diameter; and next fall, when they are in the glories of their gorgeous autumn colors two hundred dollars would not buy one of them. Even if you have but one city lot plant one good tree. It's an investment of pure joy for the future.

Where an order is received for a single tree (without other trees or shrubs) so that it has to be packed separately, a charge of \$1.00 will be made for packing. One tree has to be protected more carefully, in order to keep it from being broken; and the cost of packing eats up all the profit on a single tree. Apart from this no charge is made for packing tress, but delivery charges are paid by purchaser. Please state if you wish them to be shipped by express or freight. Freight, except for small lots, is advisable for most places in Colorado. It is more economical; and by our method of packing the stock will carry safely.

ACER—Maple

CAMPESTRE. (Hedge Maple). This beautiful little tree can be classed as a shrub. See description in Shrub Department, page 21. 3 to 4 feet, \$1.00; 4 to 5 feet, \$1.50; 5 to 6 feet, \$2.00.

DASYCARPUM. (Silver Maple). The Maple that is usually planted in Colorado as a shade tree, a fairly rapid grower with bright green foliage. 6 to 8 feet, \$1.00; 8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00.

GINNALA. (Amur Maple). For the small garden, and for planting corners about the house where a tall effect is desired, there is nothing superior to the dainty little Maple. It never grows to be of any great size, can be kept down to the desired height, the foliage is almost as finely cut as a Japanese Maple, and in the fall turns to the most gorgeous shades of crimson and scarlet. 3 to 4 feet, 75c; 4 to 5 feet, \$1.25; 5 to 6 feet, \$1.75 6 feet, \$2.25.

PLATANOIDES. (Norway Maple). A large handsome tree, with very large bright green leaves fading to yellow and gold in autumn,

somewhat faster in growth than the sugar maple, makes a very symmetrical tree. 8 to 10 feet, \$3.00; 10 to 12 feet, \$3.75.

Light stock, 6 to 8 feet, \$1.75.

SACCHARUM. (Sugar Maple). A very handsome tree with bright foliage turning to gorgeous shades of scarlet, orange and yellow in autumn. Nothing better where a permanent tree is wanted. 8 to 10 feet, \$2.25.

BLOODLEAF NORWAY MAPLE. When first opening the leaves of this tree are a bright blood-red, gradually turning to a plum-green. Makes a wonderful effect in the spring and early summer, and is an attractive tree at all times. 6 to 8 feet, \$3.25; 8 to 10 feet, \$4.25.

AILANTHUS—Ailanthus

GLANDULOSA. An attractive tree for the garden and for planting close to the house; makes a deep tap root that will not interfere with foundations. The foliage is much like the sumac, but on a larger scale, has flowers in large panicles followed by fruit clusters that are often highly colored. Very ornamental.

5 to 6 feet, \$1.25; 6 to 8 feet, \$2.00.

BETULA—Birch

ALBA. (European White Birch). One of the most beautiful of our smaller trees, small bright green foliage, turning golden-yellow in autumn, and its white bark makes it a striking object in winter. Stock is scarce. 6 to 8 feet, \$2.50; 8 to 10 feet, \$3.50.

CELTIS—Hackberry

OCCIDENTALIS. Hackberry. A tree resembling the Elm but with a rougher bark, and has brownish-black berries in the fall. Makes a good street tree, and affords a little variety from the common elms and maples.

8 to 10 feet, \$2.75

CATALPA—Capalpa

SPECIOSA. Western Catalpa. A handsome large tree with big, tropical looking foliage, and large panicles of beautiful flowers in June. While we have not found the Weeping Catalpa, so frequently sold in Colorado, hardy here, there are many of this variety scattered all over the state that have proved hardy over a long period of years. Where you want something "different" and showy, plant a Catalpa.

6 to 8 feet. \$1.00.

ELAEOAGNUS—Elaeagnus

ANGUSTIFOLIA. Russian Olive. A beautiful tree with silvery-grey foliage and picturesque habit, and a wonderful sweet perfume while in bloom. Does well under any conditions, will thrive in the driest soils.

5 to 6 feet, \$1.00; 6 to 8 feet, \$1.50; 8 to 10 feet, \$2.00.

EUONYMUS—Euonymus

EUROPAEUS. European Burningbush. While not strictly a tree we have trained a few of these in tree form, and they make splendid specimens for the lawn or garden. The foliage is attractive at any time; and in the fall turns to glowing shades of red and bronze; and its brilliant fruits are retained on the tree the greater part of the winter.

6 to 8 feet. \$2.00.

FRAXINUS—Ash

AMERICANA. White Ash. A tall tree with upright or spreading branches, forming a pyramidal or round-topped crown. Much used for street planting, good autumn effects in yellows, 8 to 10 feet, \$1.70.

GLEDITSIA—Honeylocust

TRICANTHOS INERMIS. Thornless Honeylocust. This is the only Locust we offer, as we believe it is the only one worth growing. It makes a handsome tree of symmetrical habit, and does extremely well on dry soils. 6 to 8 feet, \$1.25; 8 to 10 feet, \$2.50.

JUGLANS—Walnut

The black Walnut makes a handsome tree, and seems to be at home in Colorado, but should be planted in small sizes, as it makes a tap root that is difficult to dig without damage when it become any size. In Boulder, and most places where we have seen it the Black Walnut bears good crops of fruits. 6 to 8 feet, \$1.50.

PLANATUS—Planetree

OCCIDENTALIS. American Planetree. A large tree of handsome outline, and large leaves resembling those of a maple. Although it is an unusually good tree for Colorado it is seldom seen. There is a good specimen in front of the home of Mrs. Annie D. Morris, at 410 Marion Street, Denver. Its one of the most picturesque trees in Denver; is right up against the front of the house, south of the front porch. 8 to 10 feet. \$3.00.

POPULUS—Poplar

ALBA. White Poplar. Sometimes called White or Silver Maple. A handsome large tree with foliage resembling that of a maple, but white underneath, like a Bolleana Poplar. Should not be planted where the roots will be cut into, as under those conditions it suckers badly.

6 to 8 feet, \$1.25.

BOLLEANA. The handsomest of the columnar sorts, the bark is a bright green, leaves light shining green, white on the reverse side. Makes a handsome specimen, and is adapted to any purpose for which the Lombardy is used. 6 to 8 feet, \$1.50; 8 to 10 feet, \$2.00; 10 to 12 feet, \$3.00.

EUGENEI. Carolina Poplar. The favorite quick-growing Poplar, makes a large, somewhat spreading tree, and is recommended where quick results are desirable. Although common this is a handsome tree. 6 to 8 feet, 75c; 8 to 10 feet, \$1.00.

LOMBARDY. A handsome tree when allowed to make branches from the ground up; as our stock is trained.

Specimens, 6 to 8 feet, \$1.25; 8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00.

Regular stock, not branched from ground, and suitable for screens, etc. 6 to 8 feet, \$1.00; 8 to 10 feet, \$1.25; 10 to 12 feet, \$1.75.

SIMONI. Simon's Poplar. A new columnar Poplar that we have been growing for several years. It is similar in habit to the Lombardy, but not so robust a grower, and more suited for garden planting. It has bright, deep green foliage, from the ground up. A very handsome tree. 6 to 8 feet, \$1.25; 8 to 10 feet, \$1.50; Dozen, \$12.50 and \$15.00.

QUERCUS—Oak

Have you planted your Oak? Read the paragraph under Sutherland Trees for Colorado, on page 29. If you love your state and wish to help to beautify it plant at least one hard wood tree. Oaks are slow to start, don't be impatient.

PALUSTRIS. Pin Oak. One of the finest of the Oaks, has small leaves, deeply lobed, and turns gorgeous colors in autumn. A most beautiful tree. 6 to 8 feet, \$3.00.

RUBRA. Common Red Oak. A large and handsome tree, with a symmetrical round-topped crown; the leaves are larger than those of the Pin Oak, are a rosy pink on opening, turning to a dark green, and in autumn change to orange shades. 6 to 8 feet, \$3.00; 8 to 10 feet, \$4.00.

ROBINIA—Locust

HISPIDA. Rose-Acacia. This makes a small tree, somewhat irregular in outline, with leaves resembling those of the Black Locust, and is a good tree for planting back of shrubbery. Has large racemes of bright rose-colored flowers in spring. Very showy. Tree form, \$3.00.

SALIX—Willow

PETANDRA. Laurel Willow. A handsome, fast-growing tree, with bright glistening deep green foliage. The best of the Willows for shade purposes. 6 to 8 feet, \$1.00; 8 to 10 feet, \$1.50.

VITELLINA. Golden Willow. Has bright golden bark making a brilliant effect in the winter and early spring months. Red or brown barked shrubs used in connection with this make a most attractive picture.

5 to 6 feet, 50c; 6 to 8 feet, 75c; 8 to 10 feet, \$1.00.

TILIA—Linden

AMERICANA. American Linden. A large tree of well-rounded habit, foliage pale green, fading to yellow in autumn, white flowers that attract the bees. A handsome tree for lawn or garden.

6 to 8 feet, \$2.50.

ULMUS—Elm

AMERICANA. American Elm. One of the hardiest and best shade trees for Colorado.

8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00.

CAMPESTRIS. English Elm. A splendid tree for lawns and parking, makes a large tree with a round-topped crown, foliage rich green, holding its color longer than any other species.

8 to 10 feet, \$2.75.

Dozen Rate on Trees.

12 Trees of one sort for ten times the single price.

SUTHERLAND FLOWERING TREES

If you are a garden lover, and are not familiar with the many varieties of Flowering Trees adapted to our Colorado conditions, you are missing a great treat. If I attempted to go into the beauties of this class of trees there would be left no room for anything else in my catalogue. As a lawn specimen, for a larger note in the garden than can be given by a shrub, use one of our flowering trees. With the exception of the Sorbus all are dwarf enough for the smallest garden or back yard; and even a twenty-foot plot has room enough for it if it is used as a background. If you wish something beautiful and different plant a few of our flowering trees.

AMYGDALUS—Peach, Almond

PERSICA. Double flowering Peach. While this is not usually considered to be hardy in Colorado, I have found it growing and blooming here and there throughout the state. There is quite a large specimen in Colorado Springs in a southwest corner, where it is sheltered from most of the strong winds, where it has been doing well over a long period of years. \$2.00.

CRATAEGUS—Hawthorn

In many ways the Hawthorns are amongst the finest of our Flowering Trees, having many good features they are attractive at all seasons, even in winter. They are attractive to birds as well as to people. As I write this, January 30, there is a Townsend Solitaire on a Washington Thorne in my garden eating the berries that have held over all winter; he has been there almost every day during the past three weeks. We have a large assortment of Hawthorns, one suitable for any purpose. Hawthorns should be closely pruned in planting; cut off all small branches.

COCCINOIDES. Scarlet Thorn. Small tree forming a broad symmetrical head, very handsome in outline, white flowers and large bright red edible haws ripening in August. Foliage assumes wonderful fall colors in orange and yellow tones.

3 to 4 feet, \$2.00; 4 to 5 feet, \$3.00; 5 to 6 feet, \$4.00.

CORDATA. (Washington Thorn). Small tree with upright branches, small heart-shaped leaves; the flowers are white with rose-colored anthers, followed by small brilliant red haws that are retained all winter; in autumn it becomes a tree of flame. One of the finest.

MACRACANTHA. Spike Hawthorn. Has attractive foliage, with good fall color, small but brilliant blood-red fruits, but the most striking feature is its many very long thorns which make it a most ornamental tree.

MOLLIS. Downy Hawthorn. A most decorative variety, with large, bright green foliage, turning attractively in the autumn, fruits bright red.

OXYCANTHA. English Hawthorn. The celebrated May Thorn of the English gardens and hedges. It has small attractive foliage, single white flowers, followed by brilliant red fruits not much larger than peas, retained well into

Denver's Most Beautiful Tree—Hawthorn, on State Capitol Grounds

the winter. A beautiful tree. 3 to 4 feet, \$1.50; 4 to 5 feet, \$2.00; 5 to 6 feet, \$2.50; 6 to 7 feet, \$3.50.

DOUBLE ENGLISH HAWTHORN. Has double white rose-like flowers that are retained for a considerable time.

4 to 5 feet, \$2.50; 5 to 6 feet, \$3.50.

DOUBLE PINK ENGLISH HAWTHORN. Double, deep rose-pink flowers, a lovely tree.

4 to 5 feet, \$2.50; 5 to 6 feet, \$3.50.

PAUL DOUBLE SCARLET HAWTHORN. One of the showiest of the Hawthorns, has double carmine flowers.

3 to 4 feet, \$2.50.

Price, except where noted. 3 to 4 feet, \$1.75; 4 to 5 feet, \$2.25; 5 to 6 feet, \$3.00; 6 to 7 feet, \$4.00.

MALUS—Apple, Flowering Crab

In many ways the Flowering Crabs are quite as attractive as the Hawthorns, in flower they are even more showy, having masses of large single or double flowers in various shades of pink and red. Many of them have small ornamental fruits, and all have good foliage which assumes showy tones of red and yellow in autumn. They are all small trees, and no flowering trees make more beautiful objects for the garden and lawn.

BECHTEL'S CRAB. The best known of the Double-flowering crabs; has large double, rose-pink flowers; and makes an attractive small tree at all times. Suitable for small gardens, as it never grows to be of any considerable size. Much used in formal gardening, as it can be sheared, or clipped to keep it to any size or form. 2 to 3 feet, \$1.75; 3 to 4 feet, \$2.50; 4 to 5 feet, \$3.00; 5 to 6 feet, \$4.00.

CARMINE CRAB. A single variety with dainty carmine-pink flowers, borne in great profusion, followed by tiny fruits. Dwarf in habit.

DOUBLE PINK CHINESE CRAB. Makes a handsome small tree, with large semi-double flowers of a bright rose-red. 3 to 4 feet, \$2.00.

FLORIBUNDA. Japanese Flowering Crab. Makes a shrub, or small tree with a symmetrical crown, foliage turns yellow in autumn, flowers rose-red, fragrant, and borne in great profusion, fruit red, and about the size of a pea. A grand specimen shrub, and one of the best of the spring flowering trees.

4 to 5 feet, \$2.00.

PURPLE CRAB. One of the most attractive sorts; the narrow foliage when first open is a deep plum color, and the handsome single flowers, of a deep carmine are borne in great profusion.

SCHEIDECKERI. Scheidecker Crab. The flowers are double and of great substance, bright rose, and are splendid for cutting as they last a long time in water. 3 to 4 feet, \$2.00.

SIEBOLDI. Toringo Crab. A dwarf tree with light pink flowers, followed by small fruits, about the size of a pea. It makes a very lovely little tree in spring, as it is literally smothered in flowers, 3 to 4 feet, \$2.00.

SARGENTI. Sargent Crab. This is one of the most valuable, as it is the only known variety that never becomes more than a shrub, consequently it is unusually well adapted to use in the smallest garden. It is late in flowering, buds dark rose, flowers white flushed with pink, fruits small wine-colored or yellow. A little gem. 3 to 4 feet, \$2.50.

NIEDZWETZKYANA. Redvein Crab. A remarkable crab on account of the flowers, leaves, branches and fruit all being red in color. A small very showy tree. Scarce. 3 to 4 feet, \$3.00.

PRUNUS—Plum, Cherry

PADUS. European Bird Cherry. A small tree with foliage similar to the wild cherry, turning to gorgeous shades of orange in the fall, and in spring has masses of creamy-white fragrant flowers, followed by berries similar to the Chokecherry. A very attractive little tree.

8 to 10 feet, \$2.50.

TRILOBA. Flowering Plum. A most attractive small tree, suitable for the garden, or as a lawn specimen. It makes a shapely tree and has quantities of double, deep rose-pink flowers in early spring. These are usually grafted on Peach roots; but ours are on plum, the only kind we have found hardy in Colorado. Fine little trees 5 to 6 feet in height, \$2.50.

PURPLELEAF PLUM. A handsome small tree with purple foliage, retaining its color throughout the summer. In spring the bluish-pink flowers are borne in great profusion. Rare and beautiful. Plant where it will be sheltered from the west.

Good strong stock, Each, \$1.50; Dozen, \$15.00.

SORBUS—Mountain-Ash

AUCUPARIA. European Mountain-Ash. A small and most attractive tree, suitable for a lawn specimen; the leaves are compound, like an elm, but much smaller, and turn beautifully in the fall. In spring it has large heads of white flowers, followed by brilliant red fruits. 5 to 6 feet, \$1.50; 6 to 8 feet, \$2.00.

VIBURNUM—Viburnum

PRUNIFOLIUM. Black Haw. Although usually classed with shrubs it is really a small tree, with stiff, spreading branches; the foliage is good at all times, but in the autumn it turns to a brilliant scarlet. In the spring it is covered with creamy-white flowers, succeeded by glaucous blue berries. Very ornamental. Good strong plants, \$1.50.

WEeping TREES

The varieties we offer are all of natural weeping habit, not the monstrosities so often seen in the Weeping Trees with grafted heads.

CUT LEAF WEeping BIRCH. The handsomest of all Weeping Trees, finely-cut foliage, and white bark that is very striking in winter.

These are so scarce as to be practically unobtainable; we have but a few and will reserve them for the first orders received. Small trees, Each, \$6.50.

GOLDEN WEeping WILLOW. The best Weeping Willow, bright, attractive foliage and golden-yellow bark. A very handsome tree. 6 to 8 feet, \$1.00; 8 to 10 feet, \$1.50.

WEIRS CUT LEAF WEeping MAPLE. A most attractive tree, with foliage almost as finely-divided as that of the Weeping Birch, has striking fall colors, bright golden-yellow. 6 to 8 feet, \$1.50; 8 to 10 feet, \$2.25.

FRUIT TREES

So many of our customers want a few fruit trees for the home garden we have decided to carry a few choice sorts, the best varieties for family use.

APPLES

DELICIOUS. Considered the choicest apple grown.

RED JUNE. The best real early apple, bright red, of delicious flavor.

WEALTHY. A large fall apple of fine flavor, good for eating or cooking.

YELLOW TRANSPARENT. A splendid summer apple, ripening in August, delicious flavor. The best variety to can as apple sauce for winter.

RED SIBERIAN CRAB. The small red crab so well known, best for jelly.

Good strong trees, Each, \$1.00; Dozen, \$10.00.

CHERRIES

For the small back-yard garden the cherries and plums are best, as they take up but little space; and can usually be depended upon for fruit; both are ornamental enough to plant with shrubbery.

ENGLISH MORELLO. A large dark red cherry of fine flavor.

EARLY RICHMOND. The earliest variety, fine for pies.

LATE DUKE. Large, light red, delicious flavor.

LARGE MONTMORENCY. Large, red, productive, one of the best.

WRAGG. Very hardy, vigorous and productive, dark purple fruits of fine quality.

Extra large, well-branched trees.

Each, \$1.25; Dozen, \$12.50.

PLUMS

BRADSHAW. Large, early, dark violet-red, juicy and good.

GERMAN PRUNE. Large blue, juicy, rich, fine flavor.

IMPERIAL GAGE. Large pale green, sweet and juicy, excellent.

LUMBAR. Medium size, violet-red, hardy, juicy and good.

Good strong trees. Each, \$1.00; Dozen, \$10.00.

COMPASS CHERRY-PLUM. This makes a delightful little ornamental tree for the garden. The fruits are small and round, much like a cherry in appearance, bright red; makes a brilliant show on the tree, and are very fine for jams and jellies. Good strong trees. Each, \$1.00; Dozen, \$10.00.

RED CARRANT. Large Cherry. Each, 35c; Dozen, \$3.50.

WILD FLOWERS FOR THE SHADY CORNER

Every garden has a shady corner that is usually a problem; when it might easily be the most valuable asset of the garden. The most beautiful spot in my own garden is a shady corner of Ferns, Columbine, English Primroses, Forget-Me-Nots and Wild Flowers. Prepare such a corner by spading deeply, putting in some broken stone about two feet below the surface, for drainage; then work in all the dead leaves you can find, and, if possible, mix in some leaf mould towards the surface. Leaf mould is simply rotted leaves, which you can prepare by burying the leaves from your garden, and keeping them wet so that they will rot. We have gathered together a number of Wild Flowers, Ferns and other Flowers that are suitable for the shady corner, and list same below.

This is the way to prepare such a bed; but if you do not wish to go to so much trouble simply see that it has good light soil, and spade it up well with some very old, well-rotted cow manure. My own "shady corner" did not have any elaborate preparation, and it's hard to beat.

Aconitum
Ajuga
Aquilegia
Astible
Convallaria
Dicentra
Ferns
Funkia
Filapendula
Lily Canadense
Lily Philadelphicum
Lily Supurbum
Lysimachia Nummularia
Mertensia
Myosotis
Phlox Subulata—partial shade
Phlox Divaricata
Primrose
Sedum, dwarf varieties
Thalictrum
Trollius
Violets

ORCHID. Lady Slipper. (Cypripedium spectabile). This is the finest of our native orchids, and does well in a shady corner, if planted in leaf mould. It has large pink and white, Lady Slipper, flowers. One of the most beautiful of the wild flowers. Single plants, Dozen, \$3.50; Three, \$1.00; One, 35c.

We also have clumps from 50c to \$1.00 each.

FALL BULBS

Our catalogue of fall bulbs will be ready in September. We have a large assortment of the Choicest Varieties of Tulips, Narcissus, Hyacinths, and other fall bulbs at prices equal to those of any good nursery in the east, and we deliver free, while you pay express charges from the east, adding about 25% to the cost. Be sure and ask for our Bulb Catalogue.

Sutherland Fall Bulbs

See our Fall Bulb Catalogue before buying your Tulips, Narcissus, etc. We have been importing our bulbs direct for many years, and offer a large and choice assortment, of the **BEST BULBS**, and at prices that will equal any. We deliver free.

Have You Friends Who Are Interested in Flowers ?

If you have friends who would like a copy of our catalogue, we would appreciate your sending us their names. Should they order we will show appreciation by adding some extras to your order.

You will notice that we have made a very substantial reduction on all our prices this year. We have, however, maintained the same high standard that our stock has always been noted for.
